

## Sustainability

Carrying on founder Toichiro Nakashima's spirit of "contributing to society through healthier dietary lifestyles," we are working to help solve social issues. Our goal is to use discussion and partnership with our various stakeholders to help create a sustainable society and achieve sustainable growth for the Group.

Top Message

Even before the emergence of the concept of sustainability, the Kewpie Group was working to address issues in society in line with our founder Toichiro Nakashima's ambition of “contributing to society through healthier dietary lifestyles.” Today we have a future vision as described in Our Ideal and 2030 Vision, and with the FY2021-2024 Medium-term Business Plan under the theme of “Transition to a structure that realizes sustainable growth,” we are focusing on redoubling efforts involving society and the global environment.

Under the Kewpie Group Basic Policy on Sustainability, we have identified our material issues with the UN Sustainable Development Goals (SDGs) in mind, and are promoting initiatives as a united Group. In FY2022, we added conservation of biodiversity to the Basic Policy on Sustainability, and partially revised the content to include six material issues for sustainability.

The recovery in food demand in Japan and our sales growth in global markets, particularly in North America and Southeast Asia, contributed to an increase in sales in FY2022. However, the business environment in FY2023 is expected to continue creating challenging management conditions, with factors such as the impacts of surging prices for our main raw materials, energy and procurement as a result of international instability and the sharp depreciation of the yen, as well as surging egg prices due to the spread of the avian flu. Although the future is uncertain, we will continue to focus on the following three areas in our business activities.

- As a leading company for salads and eggs, help extend healthy life expectancy by addressing people's health issues
- Help realize a sustainable society by refining technologies that balance delicious taste and product shelf life
- Contribute to food culture and health around the world while aiming to be a global company

Regarding product shelf life, extending best-before dates through improved manufacturing methods and packaging is expected to reduce food loss in each value chain.

We believe that working to solve social and environmental issues in this way is a necessary investment for the future, and we will work to solve these issues through great taste, empathy, and uniqueness. By caring for people and the environment through the entire value chain, from product design and procurement to production, sales and consumption, the Kewpie Group will create a future full of smiles.

Sustainability Management

To contribute to improving social sustainability and achieve sustainable corporate growth, the Kewpie Group has formulated the Basic Policy on Sustainability.

Having defined "Material Issues for Sustainability," the Sustainability Committee, chaired by the Director of Sustainability, coordinates subcommittees and projects centered on different themes to address these issues.

Furthermore, we will actively hold dialogues with our stakeholders who support our initiatives. We will work with our diverse stakeholders to solve social issues and realize the Kewpie Group 2030 Vision, the Corporate Philosophy of the Kewpie Group, i.e. Our Ideal.

↳ **Material Issues and Promotion Framework**

Here, we outline details of the Kewpie Group Basic Policy on Sustainability, material issues being addressed and the promotion framework for achieving sustainability targets.

↳ **Stakeholder Engagement**

Our stance toward and principal means of dialog with stakeholders

↳ **Outside Evaluation**

## Material Issues and Promotion Framework

- Our Approach to Sustainability ●
- Kewpie Group Basic Policy on Sustainability ●
- Sustainability Promotion System ●
- Material Issues for Sustainability ●
- Process for Identifying Material Issues ●
- Sustainability Targets: Achieving Our 2030 Vision ●
- Promoting Awareness Among Employees ●

### Our Approach to Sustainability

We at the Kewpie Group aim to continue helping create a better society by contributing to food culture and health of the world through great taste, empathy, and uniqueness. We recognize sustainability initiatives as important activities and help realize a sustainable society through the practice of our Corporate Philosophy and Group Policies, and implement our initiatives as a foundation for the sustainable growth of the Group.

### Kewpie Group Basic Policy on Sustainability

With an emphasis on the aspiration for **"love around the kitchen table,"**  
we aim to address and resolve various issues through  
"great taste, empathy and uniqueness."  
We will create a future full of smiles by caring for people  
and the environment throughout the value chain,  
from product design and raw material procurement,  
to production, sales and consumption.

#### Contributing to Food Culture and Health

- As a leading company in salads and eggs, we contribute to extending the healthy life expectancy of people around the world through the pursuit and global promotion of nutrition and health benefits.
- Through food, we support the mental and physical health of children who will create the future.

#### Effective Use and Recycling of Resources

- As the only manufacturer in the world that makes effective use of the entire egg, we will continue to refine our technologies and create value.
- In proposing ways of eating and utilizing uneaten portions, we aim to become a globally unique "vegetable utilization manufacturer."
- To realize a recycling-oriented society in plastics, we will promote environmentally friendly product design and collaboration with external parties.
- Recognizing that water is a limited and precious resource, we will use it efficiently and reduce the environmental impact of water intake and discharge.
- We will develop extensive technologies matching demand information with transportation and delivery data information to eliminate food loss.

#### Deal with Climate Change

- We aim to reduce CO<sub>2</sub> emissions throughout the value chain, from the procurement of raw materials to product consumption.

#### Conservation of Biodiversity

- We will strive to minimize negative impacts on biodiversity and restore and regenerate ecosystems.

#### Sustainable Procurement

- In addition to safety, we will collaborate with business partners to promote stable procurement that takes into consideration environmental impacts and human rights.

#### Respect for Human Rights

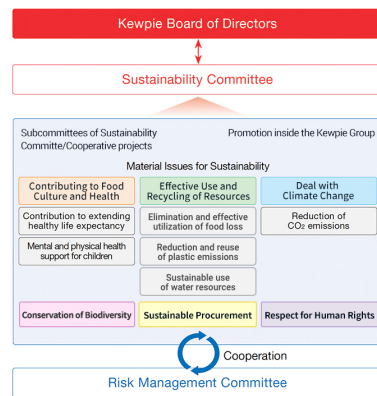

- We promote employee diversity and inclusion, protecting the human rights of everyone involved in our business.

## Sustainability Promotion System

Chaired by the director in charge of sustainability, the Sustainability Committee promotes the formulation of policies and plans as well as initiatives toward the achievement of the sustainability targets.

We are working to instill and establish groupwide material issue targets and initiatives examined in subcommittees and cooperative projects.

In cooperation with the Risk Management Committee, we will respond to climate change and strengthen our business foundation.

## Material Issues for Sustainability

Using backcasting and considering our aims to realize the "Kewpie Group 2030 Vision" and contribute to SDGs\* from 2030, the Kewpie Group has identified the following material issues for sustainability.

- Contributing to Food Culture and Health
- Effective Use and Recycling of Resources
- Deal with Climate Change
- Conservation of Biodiversity
- Sustainable Procurement
- Respect for Human Rights

We believe that these issues are important to both contribute to the realization of a sustainable society and achieve sustainable growth for the Group. We will periodically review our priority issues in response to changes in the social and global environment.

\* Sustainable Development Goals (SDGs)  
The Sustainable Development Goals (SDGs), adopted by the United Nations General Assembly in 2015, are a collection of 17 global goals forming a common international agenda for sustainable development, with a target date of 2030.

## Process for Identifying Material Issues

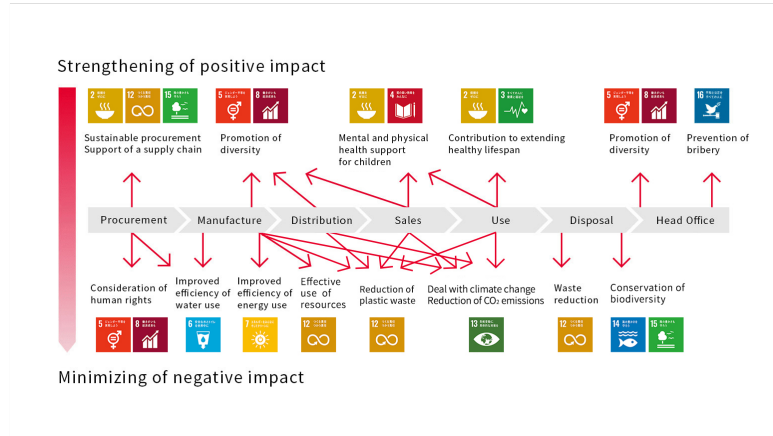

## Identification of Social Issues to be Addressed by the Kewpie Group

The Kewpie Group identifies social issues to be addressed through its business with reference to Sustainable Development Goals (SDGs), GRI, ISO 26000, SASB, and various ESG assessments.

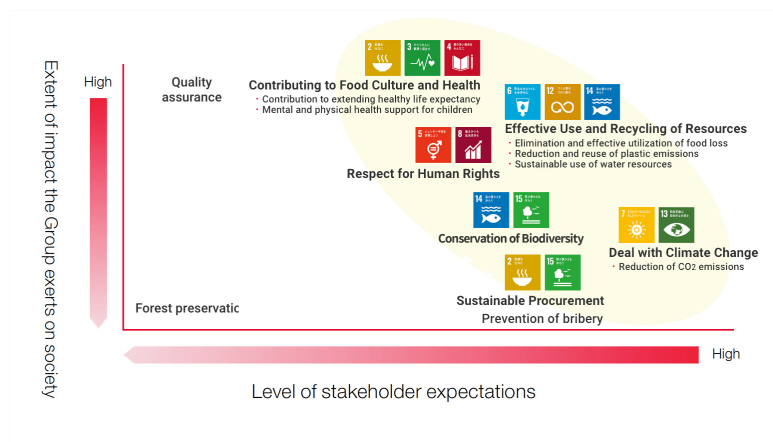

## Impact on Business and Society

We analyzed risks and opportunities in the value chain considering the entire value chain and stakeholders. Additionally, for each social issue, we evaluated stakeholder expectations and the Group's impact on society and identified material issues for sustainability.

## Risks and Opportunities Analysis of our Value Chain

## Identification of Material Issues for Sustainability

## Sustainability Targets: Achieving Our 2030 Vision

Sustainability targets are indexes of the themes tied to key sustainability issues that the Kewpie Group will address.

In FY2023, we added "biodiversity conservation" as a priority issue in light of our achievements, progress, and changes in society and the global environment.

All our employees are committed to achieving our goals by maintaining an awareness of sustainability, practicing Group Philosophy, and enacting Group Policies.

Sustainability Targets and Performance

Material Issues	Initiative Theme	Indicators	FY2022 Results	FY2024 Target	FY2030 Target	Related SDGs
Contributing to Food Culture and Health	<p>Contribution to Extending Healthy Life Expectancy</p>	<p>As a food partner for every person:</p> <ul style="list-style-type: none"> <li>Contribute to achieving a vegetable intake target of 350 grams per day</li> <li>Promote a boost in egg consumption in order to contribute to increasing protein intake</li> </ul>				  
	<p>Mental and Physical Health Support for Children</p>	<p>Number of children's smiles via our activities (cumulative since FY2019)</p>	286 thousand children	At least 400 thousand	At least 1 million	
Effective Use and Recycling of Resources	<p>Elimination and Effective Utilization of Food Loss</p>	<p>Food waste reduction rate (compared to FY2015)</p>	46.6%	At least 50%	At least 65%	
		<p>Effective utilization rate of unused portions of vegetables Main vegetables: Cabbage, etc.</p>	77.5%	At least 70%	At least 90%	
		<p>Reduction rate in volume of product waste (compared to FY2015)</p>	74.8%	At least 60%	At least 70%	
	<p>Reduction and Reuse of Plastic Emissions</p>	<p>Reduction rate in volume of plastic waste (compared to FY2018)</p>	7.8%	At least 8%	At least 30%	
<p>Sustainable Use of Water Resources</p>	<p>Water usage (basic unit) reduction rate (compared to FY2020)</p>	1.6%	At least 3%	At least 10%	  	
Deal with Climate Change	<p>Reduction of CO<sub>2</sub> emissions</p>	<p>Reduction rate in CO<sub>2</sub> emissions (compared to FY2013)</p>	26.1%	At least 30%	At least 50%	 
Conservation of Biodiversity	<p>Conservation of Biodiversity</p>	<p>Promoting the Kewpie Group Biodiversity Policy to conserve biodiversity and pass on the bounty of nature to future generations</p>				 
Sustainable Procurement	<p>Promotion of Sustainable Procurement</p>	<p>Promote Fundamental Policy for Sustainable Procurement in cooperation with business partners</p>				 
Respect for Human Rights	<p>Respect for Human Rights</p>	<p>Promote the Kewpie Group Human Rights Policy to respect the human rights of all people involved in our business</p>				 

Note: The "food waste reduction rate" indicator includes the "effective utilization rate of unused portions of vegetables."

Sustainability targets are domestic figures.

In FY2023, we added "biodiversity" conservation as a new priority issue.

## Promoting Awareness Among Employees

---

We believe the creation of a sustainable society and sustainable corporate growth requires each and every employee to understand and empathize with our ideas and policies.

### In-House Bulletins

---

We use publications such as integrated reports and books on communication to educate employees. We also disseminate information on sustainability via in-house tools such as the Kewpie Group newsletter "iQP" and the sustainability email newsletter "NewS."

### Kewpie Group Official Blog

---

Launched in March 2007 to communicate our social and Protect the Earth's Environment to the public, Kewpie Group Official Blog (formerly known as the CSR Blog) aims to make the concept of sustainability resonate with each and every employee through articles written by employees actually working within the group.

## Dialogue

Taking changes in our operating environment as an opportunity to become a health-conscious company that transcends the boundaries of food through self-transformation.

**Harold George Meij**  
Management Advisory Board  
Outside Board Member

**Mitsuru Takamiya**  
Chairman and CEO  
President and Chief Executive Corporate Officer  
Kewpie Corporation

### Corporate culture imbued with our philosophy

**Meij** The business fields Kewpie operates in are essential to the preservation of life. I have been hoping to contribute to society through my work. I am therefore very proud and have a strong sense of mission about being involved in the management of Kewpie as an outside member of the Management Advisory Board.

**Takamiya** The advice received from you is very promising from a perspective that goes beyond values specific to Japan. I am always very encouraged by your clear and positive suggestions and comments.

**Meij** Since I assumed the role as an outside member of Kewpie's Management Advisory Board in January 2021, I always have the impression that Kewpie's corporate philosophy RAKU-GYOU-KAI-ETSU is well-entrenched throughout the company. I have seen time and time again how our talented employees cooperate with each other.

**Takamiya** Thank you very much. Since I have assumed the role as president, my visits to business facilities in various regions have demonstrated that our colleagues are working together with a strong sense of cooperation. So naturally, the most important thing is to promote management that imbues all employees with a sense of RAKU-GYOU-KAI-ETSU. At the same time, I must show and share with employees the overarching path to the ultimate goals beyond our immediate tasks. Thus, I would like to discuss in a future-oriented manner Kewpie's corporate philosophy RAKU-GYOU-KAI-ETSU, which has been passed down from generation to generation.

### Facing social issues through food culture and health of the world

**Takamiya** Investors often ask me about management issues such as the recent sharp rise in raw material prices. Yet, I have consistently assured individuals inside and outside the company that their concerns are unwarranted.

We instead view difficult operating conditions as an opportunity because it is only through facing difficulties that we receive a clearer picture of the company's strengths and weaknesses, as well as what must be done to overcome these challenges. One of our growth strategies is to contribute to the food culture and health of the world. Based on this, we will go beyond the boundaries of food and enter the broader health field.

**Meij** I also see room for growth through the Group's vision to contribute to the food culture and health of the world. The company can achieve further business growth by contributing to mental wellbeing through fine chemical products and health through science in such products as pharmaceuticals, while maintaining as its first business pillar existing businesses that promote physical health through eating. With the advent of an era of 100-year lifespans, the quality of health will also be important going forward.

**Takamiya** Regarding the quality of health, we are developing products related to pre-symptomatic

## Dialogue

diseases and immunity enhancement. We have already launched foods with functional claims effective in dealing with conditions such as hay fever. In addition, preventing dementia has become a global issue as the population ages in Japan and worldwide. We are developing ways to help solve this by using the power of eggs.

### Shifting to global markets, where great business opportunities look promising

**Meij** Another growth strategy is the shift from Japan to global markets. Here, Kewpie targets doubling the current level of overseas profits to ¥20 billion. The Ministry of Internal Affairs and Communications estimates that Japan's population will decline 60.70% from the current level over the next 100 years. This is said to be an extremely rapid decline, unparalleled even over a 1,000-year period. Against this backdrop, we recognize the critical need to develop business pillars that differ from previous ones and/or expand into new markets, especially overseas. Kewpie is planning to pursue both.

Japan's GDP (approximately ¥550 trillion) is the world's third largest, but is only 4% of the global total. I agree with and see promise in Kewpie's direction to seek growth from the remaining 96%.

**Takamiya** Despite its 100-year-old history, Kewpie was a newcomer in the seasoning field compared to soy sauce and miso makers. Kewpie has expanded by popularizing mayonnaise and salad dressings in Japan, where such items did not previously exist. However, I think we have been lacking in how it engages with large overseas markets in response to external changes such as the decline in population. In the current severe business environment, we need to transform our operations. I want to take a fresh look at the attractive overseas markets, rather than dividing it into domestic and overseas operations.

**Meij** Indeed, there are few companies worldwide with histories over 100 years like Kewpie. In other words, Kewpie's overarching direction expressed in the company motto and philosophy pursued to date are correct. This is a massive advantage that Kewpie has over overseas companies.

**Takamiya** The population will continue to grow in large markets abroad. As a result, we would like to bring joy to the many peoples of the world through great tasting and healthy items created in Japan.

**Meij** While food culture differs among countries and regions, the desire for health is universal. Organizationally, however, my experience in working for various global companies has shown me that the more global they get, the smaller the role played by headquarters becomes, for better or worse. Of course,

while the headquarters formulate major strategies for the next 30 years, it is essential to quickly develop operations based on the characteristics of individual markets and consumers by leaving the strategy implementation to each country and region.

**Takamiya** I completely agree with you. Rather than impose on individual markets the value of the Japanese delicacies we hope to deliver, we are developing marketing approaches to make inroads in each region through communication. For example, Kewpie Mayonnaise and Kewpie Deep-roasted Sesame Dressing are tested delicious in every country. However, what I find interesting is how the uses of these items vary among regions. Our products are accepted in overseas markets with diverse food cultures and tastes, which is a source of great confidence. We have only been able to deliver products to 62 countries and regions worldwide, including export destinations, so I would like to expand our reach to even more countries and regions and regions.

**Meij** From another overseas perspective, I think the commitment to safety in supply chains that extends from raw material procurement to manufacturing and logistics is a value unique to Japanese companies and is very

## Dialogue

appealing overseas.

**Takamiya** I guess that what is considered to be ordinary or common in Japan can be very attractive and valuable to the world. We, therefore, intend to reproduce this pursuit of higher quality and desire for craftsmanship in each country in a manner that is not arrogant. During my business trip to the United States last January, I saw for myself well-made products produced with the same values and quality as in Japan. This gave me the sense that we can proudly and safely deliver our products to American consumers. I was also very excited to see KEWPIE brand products on the shelves of local supermarkets and customers actually purchasing them. There have been difficult times in the 40 years since we entered the American market. With human mobility and taste experiences spreading globally, however, awareness of Kewpie products is beginning to grow mainly through social networking sites. Sometimes trends gradually take hold and then suddenly take off, and I got the sense in the United States that our time has arrived.

**Meij** Kewpie serves as both the brand and company name, and is alphabetic. The mascot that represents Kewpie is also a great marketing tool.

**Takamiya** We are now at a critical phase for expanding brand awareness.

### Business condition changes and reforms needed at Kewpie

**Meij** One of the challenges I see at Kewpie is that its personnel are too humble. Although Kewpie has many

talented employees, they cannot fully showcase their strengths because they are imbued with Japanese values that view modesty as a virtue. Competing globally means taking on global competitors, so I would like to see more aggressiveness to enhance our competitiveness, a risk-taking spirit, and greater awareness that business success is a race against time.

**Takamiya** I believe, it is better to stay balanced with a certain degree of humility when business is booming. Now, however, we need to transform the company. We need to realize our strengths and attractiveness, and strike out aggressively without hesitation. In order to pursue transformation, I am personally aware of the importance of deciding to stop doing something, so I call on employees to break free of humility to become positive, energetic, and confident. We must powerfully communicate the direction we are heading in, both internally and externally.

**Meij** Aggressive investment in public relations could be another option. As the company pivots overseas, human resources will be an even more important asset ever than before. I, therefore, hope that Kewpie's underlying spirit, commitment, confidence, and long-term strategy will resonate with future generations and, in turn, attract talented personnel. Now is the time to question not only business growth, but also the process driving it. Kewpie's stance on environmental friendliness and Diversity, Equity & Inclusion is also clear, and I hope you to promote these more.

### What to look forward to from Kewpie

**Meij** My greatest hope is that Kewpie will become a company that represents not only Japan but also the world. While Kewpie is currently positioned as a food manufacturer, I think it should be aggressive enough to transcend the boundaries of food to become a producer of health items.

**Takamiya** I feel the same way. Going boldly in a global direction makes work more fun. While it will not be easy, with big dreams, goals, and vision, we will leverage our assets—our friends, brands, products, and technology—to realize this step into a bigger world.

### Selection as ESG/SRI Index Constituent

#### FTSE Blossom Japan Sector Relative Index

The FTSE Blossom Japan Sector Relative Index is widely used to create and evaluate sustainable investment funds and other financial products. As a result of third-party research, Kewpie met the requirements for inclusion in the FTSE Blossom Japan Sector Relative Index in 2022 and was selected as a component of this index.

[FTSE Blossom Japan Sector Relative Index website](#)

#### MSCI Japan ESG Select Leaders Index\*

MSCI is a leader in Environmental, Social and Governance (ESG) research and index development. The MSCI Japan ESG Select Leaders Index consists of the highest-rated ESG performers in each industry sector, chosen from Japan's top 700 listed companies by market capitalization. For five consecutive years, Kewpie has remained a constituent stock in the index, which is selected by the Japanese Government Pension Investment Fund (GPIF) for passive tracking, since first being included in 2017.

2023 CONSTITUENT MSCI JAPAN ESG SELECT LEADERS INDEX

\* THE INCLUSION OF Kewpie Corporation . IN ANY MSCI INDEX, AND THE USE OF MSCI LOGOS, TRADEMARKS, SERVICE MARKS OR INDEX NAMES HEREIN, DO NOT CONSTITUTE A SPONSORSHIP, ENDORSEMENT OR PROMOTION OF Kewpie Corporation . BY MSCI OR ANY OF ITS AFFILIATES. THE MSCI INDEXES ARE THE EXCLUSIVE PROPERTY OF MSCI. MSCI AND THE MSCI INDEX NAMES AND LOGOS ARE TRADEMARKS OR SERVICE MARKS OF MSCI OR ITS AFFILIATES

#### MSCI Japan Empowering Women Index (WIN)\*

MSCI Japan scores Japanese companies on gender diversity and equal opportunity using multiple indicators, including employment data made public under the Act on Promotion of Women's Participation and Advancement in the Workplace. It then selects high-scoring companies from each sector for inclusion in the MSCI Japan Empowering Women Index (WIN). Kewpie has remained a constituent stock in the index, which is selected by the Japanese Government Pension Investment Fund (GPIF) for passive tracking, from 2017 to 2019 and 2022.

2023 CONSTITUENT MSCI JAPAN EMPOWERING WOMEN INDEX (WIN)

\* THE INCLUSION OF Kewpie Corporation . IN ANY MSCI INDEX, AND THE USE OF MSCI LOGOS, TRADEMARKS, SERVICE MARKS OR INDEX NAMES HEREIN, DO NOT CONSTITUTE A SPONSORSHIP, ENDORSEMENT OR PROMOTION OF Kewpie Corporation . ## S&P/JPX Carbon Efficient Index

Kewpie has been included as member of the S&P/JPX Carbon Efficient Index, a stock index for ESG investment selected by the Government Pension Investment Fund (GPIF). This index consists of the S&P Dow Jones Index, one of the world's largest independent index companies, based on carbon emissions data from Trucost, a pioneer in environmental assessment. This index increases the weight of investments in companies within similar industries that are highly carbon efficient and those that disclose information on their greenhouse gas emissions.

## SOMPO Sustainability Index

Sompo Asset Management Co., Ltd. uses independent criteria to select around 300 brands with top ESG initiatives and reviews the index every year. Pension funds and institutional investors purchase the Sompo Sustainable Management investment product, which follows the index. Kewpie was added to this list for the first time in 2019 and has been included for three years running.

## Designations and Certifications

### Platinum Kurumin\*

Kewpie is a seven-time recipient of the Kurumin certification, awarded by the Ministry of Health, Labour and Welfare to companies providing outstanding support for childcare. In May 2018, Kewpie was awarded the Platinum Kurumin\* certification.

\* Platinum Kurumin

The Platinum Kurumin certification was instituted in April 2015 to recognize companies that have met and surpassed the standards for Kurumin and to encourage businesses to pursue further initiatives to support work-life balance.

### Secures Three Stars Under the Healthy Meal & Dietary Environment Certification System

Kewpie applied for first round Healthy Meal & Dietary Environment certification from the Healthy Meal & Dietary Environment Consortium in the cafeteria segment, with the Sengawa Kewport complex being awarded the highest "3 star" rating.

### Health and Productivity Management Outstanding Organization

Kewpie has been certified as an Outstanding Organization for Health and Productivity Management in 2023 (large enterprise category) as a company that practices excellent health and productivity management. This is our second consecutive year for this certification.

## Contributing to Food Culture and Health

As a company in the food industry, an industry that is indispensable to people's lives, the Kewpie Group will contribute to the realization of healthy and affluent lifestyles.

As a "leading company for salads and eggs," we will develop products that consider the diets and health of all our customers in Japan and abroad and support the mental and physical health of children through various food-centered initiatives.

We also engage in social contribution activities to realize a better society, chiefly by maintaining our business, helping diverse groups, and maintaining strong community ties.

### Sustainability Targets

Material Issues	Initiative Theme	Indicators	FY2030 Target
Contributing to Food Culture and Health	Contribution to Extending Healthy Life Expectancy	As a food partner for every person: • Contribute to achieving a vegetable intake target of 350 grams per day • Promote a boost in egg consumption in order to contribute to increasing protein intake	
	Mental and Physical Health Support for Children	Number of children's smiles via our activities (cumulative since FY2019)	At least 1 million

#### ➤ Contribution to Extending Healthy Life Expectancy

We have implemented initiatives to contribute to diet and health for each generation and used our food to take into consideration customers with specific needs.

#### ➤ Mental and Physical Health Support for Children

Through a variety of food-centered activities, we are teaching the children that will shape our future not only about nutrition but also about the importance and joy of food.

#### ➤ Universal Design Initiatives (Only in Japan)

Our universal design initiative is to make it easy for as many people as possible to use.

#### ➤ Social Contribution Activities

As a member of local communities and international communities, we continuously engage in community-based contribution activities and support cultural activities such as singing and dancing events.

## Contribution to Extending Healthy Life Expectancy

- Our Approach to Extending Healthy Life Expectancy ●
- Collaboration and Research to Extend Healthy Life Expectancy ●
- Initiatives to Support Health of Individuals ●      Health-Focused Products ●
- Food Allergy Initiatives ●      Initiatives in Medicine ●
- Initiatives Toward Pre-Symptomatic Illnesses (Cancer Prevention) ●
- Contribution to Extending Healthy Life Expectancy Overseas ●

### Our Approach to Extending Healthy Life Expectancy

For frailty prevention, the key to lifelong health, the Institute of Gerontology at the University of Tokyo has proposed three pillars: nutrition (dietary balance and oral multi-functions), physical activity (including exercise), and social participation (social activity). However, these are common points for all generations, not only for older people. It is important to successfully incorporate the three pillars into one's life cycle. Two is better than one, and three better than two. In particular, the Kewpie Group will help extend healthy life expectancy for everyone by supporting healthy dietary lifestyles, with a focus on salads and eggs.

### The Kewpie Group Supports Your Health through the Value of Salads and Eggs

Proposed by Katsuya Iijima Professor, Doctor Institute of Gerontology, The University of Tokyo

### Gap between Average and Healthy Life Expectancies

From the Cabinet's "2018 White Paper on Ageing Society" (data from 2016)

## Collaboration and Research to Extend Healthy Life Expectancy

### Supporting Health Through Diet and Exercise!

We are working together with Central Sports Co., Ltd., who share our belief in the importance of nutrition, physical activity and social participation as the three elements of leading a healthy life. In response to demand from gym goers and instructors who want an affordable and effective way to consume protein, we hold food workshops and provide menus and health information to participants.

## Sharing Useful Information for Healthy Dietary Lifestyles through a Joint Project

We launched a joint project called Salad and Egg Recipes and Healthy Kitchen with the ABC Cooking Studio, which shares our desire to contribute to healthy dietary lifestyles. In response to dietary issues such as a lack of vegetables and protein, and excess salt, the two companies leverage their respective strengths and expertise to provide information on healthy dietary lifestyles related to salads and eggs, through web content and one-day lessons.

In March 2023, we published a Report on Salad and Egg Recipes and Health 2023, which summarizes our research on health awareness and concerns, and issues when preparing salad and egg dishes.

## Initiatives in Collaboration with The University of Tokyo Institute of Gerontology

In cooperation with the Institute of Gerontology at the University of Tokyo, we are participating in Study Group on Ideal Diets, which is a food consortium for industry collaboration with companies that share the same aspirations to improve the dietary lifestyles of older people. In order to prevent frailty and take measures, the study group aims to create new industries based on the three pillars of lifelong health. Specifically, it works to discover and nurture various industries that help prevent frailty for sustaining limited public resources in the medical and nursing care fields in Japan, which is facing a super-aging and declining population.

The University of Tokyo Institute of Gerontology

## Conducting Surveys for Healthy Dietary Lifestyles

Life expectancy is strongly related to dietary habits, and it is reportedly healthier to refrain from salt and actively consume vegetables as a prevention of lifestyle-related diseases.

In order to propose healthy dietary lifestyles, we conducted joint studies with Matsumoto City and Matsumoto University in Nagano, a prefecture known for the longevity of its residents and their high intake of vegetables, and also with the Tokyo Metropolitan Institute for Geriatrics and Gerontology in Tokyo's Shibuya City. The findings were summarized in academic presentations and papers. Based on these findings, we have started working with local companies to propose healthy dietary lifestyles for customers.

## Effect of Hen's Egg Intake on Cognitive Function

We applied for the "FY2021 Innovation Creation Enhancement Research Promotion Project"<sup>\*1</sup> offered by the Bio-oriented Technology Research Advancement Institution (hereafter "BRAIN"), and the project was awarded<sup>\*2</sup> under the title of "Research on hen's eggs" ability to improve cognitive function and development of value-added hen's eggs to expand the egg market." In the "Applied Research Stage" and alongside five other institutes,<sup>\*3</sup> Kewpie aims to clarify the effects of hen's eggs on cognitive function and jointly develop value-added eggs that contain high levels of these functional ingredients. The purpose of this project is to clarify the "cognitive function improvement effect" of hen's egg intake, to identify the components involved in this improvement, and to confirm the effect in human studies.

\*1 The R&D project is open to proposals and focuses on promoting R&D through the accumulation and utilization of knowledge to generate innovative technologies, products, and services that defy common wisdom.

\*2 Result of the review of the public solicitation for "FY2021 Innovation Creation Enhancement Research Promotion Project."

\*3 Collaborating research institutes: The University of Tokyo, Tokyo Medical University, Kanagawa Institute of Industrial Science and Technology, and National Agriculture and Food Research Organization (NARO)

## Initiatives to Support Health of Individuals

### Raising Awareness of the Importance of Chewing

In recent years, there has been an increase in the number of soft foods that require less chewing. Soft food reportedly causes a decline in the ability to chew, and the effects of this decline on the body may vary widely.\* We are engaged in joint research with Lotte Co., Ltd. and Wayo Women's University to raise awareness of the importance of chewing. In 2022, we published a ranking table (in Japanese) that summarizes the results of our joint research on the number of chews typically done for each type of food.

 Ranking table (in Japanese) number of chews typically done for each type of food.

\* As an example of this effect, it has been reported that the higher the chewing ability, the lower the prevalence of diabetes.  
Toru Y et al., Mastication and Risk for Diabetes in a Japanese Population: A Cross-Sectional Study. PLOS ONE(2013) Volume 8, Issue 6

### Lecture Events Themed on Food

Communicating correct information about food and the importance and joy of food is one of our most crucial roles.

In our hope to contribute to healthy and enjoyable dietary habits, we send employees out to give lectures themed on food that provide correct information on diet and health.

We currently have three different programs; "The Appeal of Vegetables" features content designed to stimulate interest in those who attend by watching DVDs on vegetable nutrition and ideal intake as well as showing cooking methods that participants can put into practice in their everyday lives.

We've received comments such as, "I'll plan my meals with 350g of vegetables per day in mind," or "I learned about the broad appeal of vegetables and how to enjoy them at the dinner table," indicating that this program conveys the appeal of vegetables.

### Nursing Care Events

In 1998, Kewpie released Japan's first retail nursing care foods. In 2005, Japan became the world's first super-aged society and the need for nursing care foods continues to rise.

We hold study sessions with professionals involved in the nursing care field as well as students to facilitate greater understanding of foods for the elderly and universal design foods. We also hold events for the general public.

### Tamago Star In-house Certification System

In FY2019, we started the internal certification program "Tamago Star."

We will increase the number of people across the entire Kewpie Group who can talk about eggs, and we are aiming to become the "Leading Company for Eggs."

Tamago Star is accredited to those who have attended a study session for correctly communicating knowledge about eggs and have acquired 3-Star Tamarie certification (Nihon RangyoKyokai Association).

Going forward, those accredited will take on the role of awareness-raising activities to communicate the appeal of eggs, both inside and outside the company.

Tamago Star certificate

## Egg White Paper

Conducted since 2017, the "Egg White Paper" is a research report analyzing perceptions, eating styles, and trends regarding eggs. We use the results of the questionnaire on what people find attractive about eggs and their favorite egg dishes to cultivate accurate knowledge about eggs and suggest ways to enjoy egg dishes.

## Health-Focused Products

The Kewpie Group has historically worked to spread what was then a new food culture of eating vegetables as salads. As such, the company grew hand-in-hand with the expansion of salad menus. Going forward, we will continue to research and develop products so that we can contribute to the diet and health of all generations as everyone's dietary partner.

## Food Allergy Initiatives

In recent years food allergies have been on the rise in Japan and other developed countries, and we believe this is an important issue for food manufacturers to address. We are engaged in various efforts to enable more people to enjoy their food.

## Product Labeling

In order to be read at a glance, Kewpie uses a summary design to indicate allergens that might be in products (seven items specified by regulations and 21 recommended for labeling) in addition to what is required by labeling regulations. Our baby-food products include labelling on the front listing use of seven highly critical or prevalent food allergens: eggs, dairy, wheat, shrimp, crab, buckwheat, and peanuts.

## Baby Foods Free of Seven Common Food Allergens

We are developing baby foods that do not contain the seven common food allergens, using ingredients such as wheat-free soy sauce.

## Egg-Free Mayonnaise-Type Condiments

In spring 2014, to cater to students with egg allergies Kewpie launched an egg-free mayonnaise-style condiment for commercial use in school meals. After it went on sale, we perceived a growing household need for such products and in February 2015 we launched an egg-free mayonnaise-type condiment on the consumer market. We will continue contributing to better diets by creating products that society needs.

## HOBOTAMA

To realize our ambition to deliver the great taste and properties of egg and support a bright future for children, we have developed the plant-based food product HOBOTAMA. This product can be a good substitute for those who cannot eat eggs for various reasons, including allergies.

## Egg Allergy Research

### Egg Allergy Prevention through Eating

Food allergies cause reactions such as hives and breathing difficulties, and egg allergy is thought to be especially common in babies. Previously it was thought that consumption of foods causing allergies should be avoided, but recent research\* has revealed that starting to feed babies small amounts soon after they are weaned is an effective way of preventing the onset of allergies. The Kewpie Group is working with specialist medical institutions to study ways of using less allergenic eggs created by heating, etc. and linking their use to safer diagnosis, treatment, and prevention of egg allergy. We will continue to support the discovery of new methods for diagnosis, treatment, and prevention.

Less allergenic egg ingredients created by heat treatment.

\* In 2016, the National Center for Child Health and Development presented the results of research on egg allergy prevention. A study of 121 infants suffering from atopic dermatitis showed that with proper skin treatment, the incidence of egg allergy at one year of age in babies that ate small quantities of powder made with heat-treated eggs from the age of six months was 8%, compared to 38% for babies that did not eat the powder, demonstrating the effectiveness of this technique.

## Initiatives in Medicine

Kewpie's fine chemicals business provides a variety of food, cosmetics, and pharmaceutical products, including the acetic acid bacteria enzymes created as a result of our vinegar-related research as well as egg yolk lecithin and lysozyme. Researched for over 30 years, hyaluronic acid is a core material in the business, and Kewpie has the largest domestic sales volume according to the 2017 Fuji Economic Survey.

Kewpie is the only manufacturer in Japan that produces hyaluronic acid in two ways; extracting it from the rooster comb and through microbial fermentation. Making use of our strengths in molecular weight control technology and modification technology, we continue to provide technological support to satisfy the needs of our customers.

Kewpie's hyaluronic acid is used in a variety of pharmaceuticals, including as a material for agents improving joint function, and in medical eye drops. Using the manufacturing and quality control knowhow gained through these initiatives, Kewpie is developing a business focused on the planning and development of medical devices using hyaluronic acid.

Sodium hyaluronate is used in the endoscopic injectable material, which is a medical device used in endoscopic surgeries to remove cancerous lesions discovered at an early stage in the stomach, esophagus and colon before the cancer spreads beyond the mucosal layer of the gastrointestinal tract. The viscosity of the hyaluronic acid helps to separate the mucosal layer from the muscle layer and by maintaining that state assists in either improving detachment or resecting of the lesion. By helping to treat cancer in its early stages through the use of endoscopes, Kewpie is working to extend healthy life expectancy.

Kewpie also offers products that can be used the day before the test by those taking colorectal exams and visiting medical institutions.

Kewpie's first medical device is K Smart, a submucosal injectable for endoscopic therapies

## Initiatives Toward Pre-Symptomatic Illnesses (Cancer Prevention)

Kewpie began research on preventing cancer through diet in 2013, and in 2018, began research to determine cancer risk.

By measuring a component called microRNA in the blood, we determine the risk of cancer and aim to realize disease prevention through dietary proposals that improve the expression of microRNA. To this end, we are currently working with YOKOHAMA National University and Tokyo Medical University on a project called "Technology Development Project on Next Generation Artificial Intelligence Evolving with Human Beings," which is led by the New Energy and Industrial Technology Development Organization (NEDO).

## Contribution to Extending Healthy Life Expectancy Overseas

Through our overseas initiatives, we hope to contribute to people's health, in both body and mind, all over the world. By understanding each country's lifestyle and the history and culture of their diet, we strive to meet their needs and offer new tastes and culinary opportunities with the Kewpie Group's great taste, empathy, and uniqueness.

### Development of Products that Align with the Food Culture of Each Country

The Kewpie Group aims to maintain the original taste of our Japanese mayonnaise while also focusing on developing condiments at our overseas locations that go well with local ingredients and dishes. In China, we developed a sweet type of mayonnaise that goes well with fruit salads, and the product is now widely used. Furthermore, we also developed a dressing that goes well with a mixed vegetable dish commonly eaten in northern China. The product is now incredibly popular in Beijing. In Malaysia, Indonesia and Thailand, we produce Halal certified products and sell them in the local markets and neighboring countries where food is increasingly becoming westernized. In this way, we develop products that meet the needs of each country and offer great taste to people across the world.

Left: Sweet Type Mayonnaise  
Right: Mix Vegetable Salad Dressing

Kewpie Mayonnaise Japanese Style  
(halal-certified)

### Food and Health Awareness Activities in China

Health consciousness is growing in China as well as other countries. With the aim of contributing to diets and health in China, we are conducting health promotion activities in collaboration with partners including the Shanghai Society of Food Science, drawing on the results of research conducted in Japan and locally. We have also started activities in the produce sections of stores to raise awareness of the health functions of vegetables and to draw attention to salads. Starting from Shanghai and Beijing, we are working to expand these activities across the country.

## Mental and Physical Health Support for Children

- Approach to Supporting Children's Mental and Physical Health
- Dietary Educational Activities      Support for Food Bank Activities
- Supporting Child Poverty Initiatives through Food      Bellmark Campaign
- WFP "Red Cup Campaign"

### Approach to Supporting Children's Mental and Physical Health

Food has the power to create a healthy body and maintain one's physical condition not only in terms of nutrition, but also to nurture mental health. Through various activities to convey the importance and joy of eating, we will support children's physical and intellectual development.

### Dietary Educational Activities

The Kewpie Group conveys food safety and security and the enjoyment and importance of food through food educational activities. We launched "Open Kitchen" factory tours in 1961, and since 2002 we have sent instructors to elementary schools throughout Japan to run "Mayonnaise Classes."

We also provide food-related information. We have established new dietary education content on our website, such as the "Food & Life Academy," and conduct "media library activities" where we distribute DVDs free of charge to schools and consumer centers that support the development of a healthy mind and body.

### Open Kitchen

Kewpie believes that the factory is an extension of the kitchen at home and accordingly calls its factory tours for the general public an "Open Kitchen" tour. We believe these tours present the best opportunity for our customers to see how products are made, to gain a better understand of the products, and to feel more assured about their use.

Kewpie launched Open Kitchen factory tours in 1961. It was rare at the time for food industry companies to open production sites to the public, and our tours were initiated as part of social studies field trips for elementary school students.

Currently, we offer both online and in-person tours. Online tours are also available for persons who are too far away to attend in person, are unable to go out, or who live countries outside Japan.

### Dietary Education Content

We have established a variety of nutritional education content on the official Kewpie website. We continuously add useful information and enrich the content so that children can learn independently and have fun together.

### The experience of making vegetable dishes has positive impacts on a child's mental development!

Our joint research in developmental psychology has shown that cooking vegetable dishes together with a parent is very important for a child's mental health and development. It found that children who have experience of cooking vegetable dishes together with someone least once a month score significantly higher in six psychological development categories (self-discipline, assertiveness, collaboration, self-esteem, logical/focused attitude, and curiosity) than children with no cooperative cooking experience or only with non-vegetable dishes. Many kinds of vegetables exist, and they come in a variety of colors, shapes, and tastes. In addition, vegetables are used in a wide variety of dishes, and from the perspective of a healthy dietary lifestyle, they appear very frequently on the table. It can be inferred that these characteristics are factors that have a positive influence on the psychological development of children through the experience of cooking vegetable dishes together with someone.

## Support for Food Bank Activities

In Japan, it is reported that approximately 5.22 million tons of still edible food are wasted annually (estimated in 2019 by the Ministry of Agriculture, Forestry and Fisheries). Conversely, there are many people in Japan who do not have enough food to eat. Since 2007, Kewpie has been supporting Second Harvest Japan, a non-profit organization that engages in food bank activities.<sup>\*1</sup> We currently donate products to 13 food bank organizations nationwide through three partnered local social welfare councils. We have also begun new initiatives, such as donating products to MOWLS,<sup>\*2</sup> a nationwide cooperative that supports food access activities launched through the Kewpie Mirai Tamago Foundation.

<sup>\*1</sup> Food banks accept factory seconds produced during food manufacturing and provide them free of charge to persons in need and welfare facilities such as foster centers.

<sup>\*2</sup> MOWLS: A system operated by Meals on Wheels Japan that supports the creation of an environment where everyone, from children to the elderly, can gather at "places for them" across Japan, such as children's cafeterias.

## Supporting Child Poverty Initiatives through Food

Lifestyles and diets have diversified rapidly in recent years, but this shift has been accompanied by increasingly serious social issues surrounding food, including a decline in food knowledge and interest particularly among the younger generation, the dwindling of mealtime communication, and child poverty. Based on the spirit of contributing to society through food that has driven Kewpie's business activities since the company was first founded, in April 2017 we established the Kewpie Mirai Tamago Foundation.\* Through wide-ranging support for the activities of like-minded groups, we hope to accomplish a level of social contribution not achievable by a single enterprise acting alone. As well as conducting our own dietary educational activities, we take a long-term perspective on creating healthy and sustainable societies.

\* Since April 1, 2019, the Kewpie Miraitamago Foundation switched to a Public Interest Incorporated Foundation.

### Kewpie Mirai Tamago Foundation, a public interest incorporated foundation

The main focus of this foundation is donating to organizations that create meaningful spaces in which children can relax and gain a stronger sense of belonging through food, such as those devoted to food education and the Kodomo Shokudo Network. Held activity report meetings and lectures from those involved in the management and support of initiatives such as Kodomo Shokudo on the role of children's cafeterias and the importance of hygiene and food education as part of a course on establishing meaningful spaces for children.

> [Kewpie Mirai Tamago Foundation](#)  
(Japanese site only)

## Bellmark Campaign

The Bellmark campaign originated from the desire to provide an equal education for all children in a rich and prosperous environment.

Being sympathetic to the spirit of this campaign, the Kewpie Group has cosponsored the Bellmark educational aid foundation since its beginning in 1960 and cooperated in educational support activities for participating schools, etc.

We will continue to back this campaign, which supports a wide range of social education activities.

## Kewpie Products and the Bellmark

Kewpie mayonnaise and dressings carry the Bellmark.

Products displaying the Bellmark

## WFP "Red Cup Campaign"

The Kewpie Baby Food "Happy Recipes" series is participating in the United Nations food support organization, the United Nations World Food Programme's (WFP) "Red Cup Campaign," and is donating part of its sales from products.

The Red Cup Campaign supports activities to deliver school lunches to children suffering from hunger around the world.

## Universal Design Initiatives (Only in Japan)

Approach to Universal Design Initiatives  Universal Design Foods 

### Approach to Universal Design Initiatives

In Japan our universal design initiatives focus on making products easy to use for as many people as possible. Our efforts in this field embody the Kewpie Group's ideal of aiming "to be a group contributing to the food culture and health of the world through great taste, empathy, and uniqueness."

The Kewpie Group has a Customer Feedback Committee where members of various departments, including the Customer Consultation Office, gather to discuss topics related to universal design. They then take the results back to each of their departments and discuss specific measures to improve products.

### Kewpie's Universal Design Principles (Only in Japan)

1. Anyone can use the product
2. Users can use the product with a high degree of flexibility
3. Users can easily and quickly understand how to use the product
4. The product effectively communicates necessary information
5. Use of the product does not lead to accidents or hazards
6. The product can be used easily with little strength and without straining the user
7. The product provides enough space and size for easy access
8. The product does not harm humans
9. The product is environmentally friendly
10. The product offers outstanding convenience

### Universal Design Foods

Kewpie has developed a broad range of delicious food products that are easy to eat so that they can be enjoyed by anyone. Our aim is to provide people with a rich dietary lifestyle so that they can continue to enjoy eating.

"Yasashii Kondate" is a Universal Design Food that focuses on being easy to eat. Products are available in four levels of softness to accommodate people with different chewing and swallowing abilities.

### About Universal Design Foods (Only in Japan)

Universal Design Foods (UDF) are food products that focus on being easy to eat and can be used for a wide range of purposes, such as for everyday meals or as nursing care foods. In 2002, the Japan Care Food Conference (with 88 affiliated companies as of December 2020) was established. Taking into consideration people's varying abilities to chew and swallow, it categorizes products into four levels based on softness and consistency so that consumers can easily differentiate them. Each of the categorized products are labeled with a Universal Design Foods logo.

Category	Easy to chew	Can be chewed with gums	Can be broken down with tongue	Does not have to be chewed
Ability to chew	Somewhat difficult to eat hard or large pieces of food	Difficult to eat hard or large pieces of food	Can eat soft, small pieces of food	Cannot eat solid food, even if they are small pieces
Ability to swallow	Can swallow normally	Some foods are difficult to swallow	Beverages are sometimes difficult to swallow	Beverages are difficult to swallow
Softness (rice)	Between regular rice and soft rice 	Between soft rice and rice porridge 	Rice porridge 	Mashed rice porridge 
Softness (eggs)	Thick Japanese omelet 	Rolled Japanese omelet 	Scrambled eggs 	Soft steamed egg custard (no solid food ingredients)

## Social Contribution Activities

- Our Approach to Initiatives for Better Society ●      Community Ties ●
- Community Contribution Activities ●      Cultural Contribution ●
- Education Support Activities ●      QPeace Donation-Matching Scheme ●
- Other Initiatives for Better Society ●

### Our Approach to Initiatives for Better Society

As a company involved in food and dietary that are indispensable to people's lives, the Kewpie Group is committed to helping realize healthy and affluent lifestyles.

To this end, we are engaged in initiatives for better society based on the pillars of long-term continuity, serving as many people as possible, and building strong community ties. Aiming for further developing together with communities, we engage in initiatives that lead to vibrant local communities through collaboration with local governments, local NGOs, NPOs, and other organizations.

### Community Ties

The Kewpie Group cooperates with local governments to resolve community issues.

#### Initiatives with Yamagata Prefecture

With the aim of revitalizing the region and improving the quality of life of its citizens, Kewpie in February 2019 signed a comprehensive partnership agreement with Yamagata Prefecture focusing on promoting regional revitalization. The aim is to contribute to the Yamagata Sosei (Yamagata Creation) program through the effective use of the company's resources as well as those of the prefecture.

#### Content of the Agreement

1. Matters related to the local production and consumption of Yamagata Prefecture agricultural products and the expansion of use
2. Matters related to the promotion of health
3. Matters related to the promotion of food education
4. Matters related to efforts to alleviate childhood poverty
5. Matters related to disaster prevention
6. Other matters related to the promotion of the Yamagata Sosei program

#### Activities

- Holding classes on mayonnaise in prefectural elementary schools
- Carrying out "Less Salt, More Veggies" projects in collaboration with the delicatessen foods departments of local supermarkets
- Distributing dressings and soup mixes to prefectural children's cafeterias

#### Shibuya Ward Initiatives

In December 2016 Kewpie signed a Shibuya Social Action Partner agreement with the municipal government of Shibuya Ward. The aim of this comprehensive partnership agreement is work together to resolve community issues. Through this agreement, we will cooperate with Shibuya Ward on new initiatives and foster greater harmony with the local community.

## Content of the Agreement

1. Support to provide food education and resolve child poverty
2. Support in the health promotion domain in a super-aging society
3. Research and proposal of solutions to issues in the environmental domain (including food wastage)
4. Support provision, planning, and development of communication initiatives to promote cultural and artistic endeavors
5. Support for research and educational activities to achieve diversity
6. Personnel exchange as part of human resource development and training programs

## Activities

- Conducting a joint study with the Tokyo Metropolitan Geriatric Hospital and Institute of Gerontology on how much vegetables and proteins such as eggs, which prevent frailty, are consumed by Shibuya-ku residents
- In FY2022 we participated in the Shibuya Disaster Risk Reduction Caravan, a comprehensive emergency drill in Shibuya City.

## Initiative with the City of Hiroshima

With the aim of revitalizing the region and improving the quality of life of its citizens, Kewpie in March 2018 signed a comprehensive partnership agreement with the City of Hiroshima focusing on promoting regional revitalization. The parties will work together to promote initiatives that make the most effective use of the resources of Kewpie and the City of Hiroshima.

As part of the agreement, Kewpie and the City of Hiroshima will work together to promote the local production and consumption of six large leafy vegetables grown nearby, as well as to increase the daily intake volume of vegetables by the area residents.

## Details of the Agreement

1. Matters related to promoting local production and consumption
2. Matters related to increasing the consumption of vegetables
3. Matters related to improving health
4. Matters related to the promotion of food education
5. Matters related to disaster prevention

## Activities

- Proposed "Hiroshima Salad" combining local ingredients and protein in collaboration with Hiroshima Prefecture, Hiroshima City, and JA Zen-Noh Hiroshima

## Hiroshima Prefecture Initiatives

Aohata Corporation entered into a comprehensive partnership agreement with the Hiroshima prefectural government in 2013. Under the partnership agreement it has engaged in a wide range of initiatives, including development of original local products (the Setouchi brand), tourism promotion, improvement of services for local residents, promotion of efforts to revitalize the regional economy, health promotion, food education, and enhancement of regional safety and security.

## Content of the Agreement

1. Promotion of the Setouchi brand and local products
2. Tourism promotion and dissemination of prefectural government information
3. Educational and cultural promotion
4. Health promotion and food education
5. Environmental measures and recycling
6. Regional safety and security
7. Support for people with disabilities
8. Child-raising support
9. Other efforts to enhance services for residents and invigorate regional society

Products registered under the Setouchi trademark

## Activities

- Providing food products to Hiroshima Prefecture's "Breakfast Promotion Model Project," which is organized by community volunteers who encourage elementary school children to gather before school and eat breakfast
- Reviewing menus and providing food products to Hiroshima Prefecture's "Hiroshima School Lunch Promotion Project," which invites the public to submit school lunch menus unique to Hiroshima and prepares the menus that are selected

## Initiatives in Fukushima Prefecture

---

Runs a social contribution program on the theme of "Smiles at Fukushima dinner tables!", which goes beyond existing "Mayonnaise Classes" to focus on building a cycle of local consumption of vegetables produced in Fukushima and using that cycle to create new eating scenarios.

## Activities

- Participating in the "Cucumber Harvest Grand Project" organized by JA ZEN-NOH FUKUSHIMA and holding online mayonnaise classes
- Jointly developed the "Fukushima Health Support Menu" to promote public health in Fukushima Prefecture

## Initiatives with Aichi Prefecture

---

### Aichi Minna no Salad (Everyone's Salad) Project

Although Aichi Prefecture is one of the top prefectures in Japan in terms of agricultural production, its residents do not eat enough vegetables.

To tackle this issue and increase the amount of vegetable intake among Aichi Prefecture residents, we partnered with local governments and experts, established the Aichi Minna no Salad Project and set up an executive committee in August 2018.

Together with the project members, we came up with a dish called "Aichi Salad Rice Bowl," which combines three elements Aichi residents love: delicious flavors, a hearty serving, and an unexpected surprise. We are recommending the Aichi Salad Rice Bowl to restaurants across the prefecture.

As of January 2023, 140 restaurants support the project and 50 restaurants offer the dish.

Furthermore, for Vegetable Day in 2018 and 2019, we held events to raise recognition for the project, popularize the Aichi Salad Rice Bowl and make it a staple menu in restaurants. In 2020, we continued our dissemination efforts by using medias like television and radio.

We will support the people of Aichi Prefecture in their efforts to enjoy vegetables in their diet by expanding the menu to more restaurants and promoting the menu for use as part of ready-made and in-home meals.

## Launch of Local Paysanne Salad\* Campaign in 47 Prefectures across Japan

---

In 2023, Kewpie and the National Federation of Agricultural Cooperative Associations (also known as Zen-Noh or JA) will jointly launch Local Paysanne Salad campaigns using local ingredients from all over Japan.

In each region, Kewpie branches and sales offices and JA prefectural headquarters will cooperate to promote the locally distinguished paysanne salads and local ingredients for them, in cooperation with local mass retailers and local governments.

Through these campaigns, we will propose new ways to prepare local vegetables, support the consumption of vegetables, and help create vibrant local communities through local production for local consumption.

\* What is a "paysanne" salad?

Paysanne salad refers to casual-style country salads that are popular in France and feature ingredients such as vegetables and eggs.

They are easy to prepare with common ingredients and known for being delightful to eat.

## Community Contribution Activities

---

As a member of local communities and international communities, we promote continuous community-based activities. Our employees actively take part in these initiatives with the aim to continuously engage in activities contributing to the local community.

## Community Clean-up Activities

We carry out voluntary clean-up activities in the areas around all of our facilities. Kewpie employees also take part in regular clean-ups of local riversides and shopping precincts.

## Aohata Corporation: Participation in the Adopt Program

The comprehensive partnership agreement signed between Aohata Corporation and Hiroshima Prefecture includes a promise to engage in "environmental measures and recycling" efforts. As part of the initiative, Aohata joined the prefecture's Road Adopt Program\* in 2013 and was certified by Hiroshima Prefecture as a participating organization. The company has been engaged in the project's activities ever since. Aohata's main office is located on the prefectural road (Higashi-Hiroshima Hongo Tadanoumi Line) in front of Tadano-Umi Station. The company conducts cleanup activities along the road around five to six times a year. The road is marked by a board inscribed with "Aohata Corporation." Although the cleanup members don't find much trash, those that they do find empty cans, plastic bags and cigarette butts. In addition to picking up trash, they also pull weeds growing on the sidewalk.

People passing by greet the members and thank them for their work, which shows that the initiative is strengthening the company's bond with the local community.

Aohata plans to continue engaging in Adopt Program activities so that its members and community residents alike can enjoy clean roads.

\* The Adopt Program allows residents and organizations to adopt sections of public areas and take loving care of them (such as by cleaning and weeding) as if caring for adopted children.

## Regional Contribution Activities by Overseas Group Companies

At Kewpie Thailand (KEWPIE (THAILAND) CO., LTD.), 2% of profits are budgeted for carrying out activities along the three themes of "the Environment," "Community Contribution" and "Support for Children." This is also in line with the corporate policy of the Saha Group, our local joint venture. For environmental activities, we are reducing environmental impact by operating solar power systems, recycling water, and promoting the use of biomass fuels, as well as continuously implementing tree-planting activities to retain sources of water (FY 2022: 22,000 trees). In terms of community contributions, we are supporting medical facilities in the fight against COVID-19 by providing medical equipment, masks and dust-free garments. We also support neighboring communities by distributing alcohol disinfectants. Furthermore, we are continuing initiatives to compost waste residue and distribute them to local residents. In terms of educational support, we provide tuition aid to children of our employees. We also support nearby elementary schools by remodeling their libraries and playground equipment as well as installing and maintaining sanitary facilities such as drinking water.

Medical equipment support to medical facilities

Providing neighboring communities with alcohol disinfectants

Library remodeling support

Improved playground equipment at an elementary school

## Cultural Contribution

Through art and cultural activities such as song and dance, we will continue to support a happy and healthy lifestyle for all ages.

### Mothers' Chorus

Kewpie cosponsors the JCA Mothers' Chorus Festival (organized by the Japan Choral Association [JCA] and the Asahi Shimbun Company) and the Okinawa Mothers' Chorus Festival (organized by the Okinawa Mothers' Chorus Association and the Ryukyu Shimpo Co., Ltd.). These festivals give mothers who are usually busy with chores and work the opportunity to enjoy singing in choirs. We support mothers who ensure the health and happiness of their families.

### JCA Mothers' Chorus Festival

Each year some 600 choirs take part in regional festivals around Japan. About 60 choirs are selected to attend a national festival held in a major city, where they showcase the results of their regular practice. This provides an unparalleled performance forum for mothers' chorus enthusiasts.

### History of the Mothers' Chorus Festival

This event dates back to 1978, when JCA and the Asahi Shimbun organized the 1st Mothers' Chorus Festival based on the belief of Mr. Kan Ishii, who was JCA President at the time, that mothers needed knowledge of the arts to create healthy households.

Since then, the number of participating choirs has steadily increased, and the festival is now a large-scale event with approximately 600 groups participating in the regional festivals held from March to July each year.

## Okinawa Mothers' Chorus Festival

The origins of the Okinawa Mothers' Chorus Festival date back to an event held in 1979 to promote "the joy of singing." Initially it was a small gathering where singers stepped down from the stage after performing to sit in the audience and listen to the next choir. As time went by, the concept spread throughout Okinawa and grew into a splendid cultural activity that brings together lovers of choral music. Its popularity has been boosted by the rising standards of the choirs performing and the inclusion of many Okinawan songs.

## History of the Okinawa Mothers' Chorus Festival

Thinking that if there was a mothers' volleyball league it was only proper to have a mothers' chorus festival, the late Mr. Asataro Nakasato, who was the first president of the Okinawa Mothers' Chorus Association, joined with former advisor Mr. Yokichi Hatoma, former president Ms. Yuki Nijjima, and Ms. Tamiko Shibata, a resident of Hyogo Prefecture, to take the lead in organizing a social recital by five choirs in the Naha central community center on February 14, 1979, and this formed the basis of today's Okinawa Mothers' Chorus Festival. The following year they invited then-JCA President Mr. Kan Ishii to attend the 1st Okinawa Mothers' Chorus Festival, held in Ryukyu Shimpo Hall on March 1, 1980, which was a significant first step towards establishing an ongoing event. Since then, the scope of participation has spread from Naha throughout Okinawa, and the association now holds regular choral lessons and conductors' courses to give something back to participating choirs, and is working to build a more cohesive organization and polish performance techniques.

## All-Japan Elementary and Junior-High School Student Dance Competition

Kewpie also co-sponsors the All-Japan Elementary and Junior-High School Student Dance Competition (organized by the Asahi Shimbun Company).

Rhythm dance has been incorporated into school education and club activities in elementary and junior high schools and has shown great promise as a tool for developing students' rhythm, self-expression, creativity, and communication skills, as well as physical fitness. Kewpie will continue to support the healthy growth of children who work hard at their dancing through food, a source of energy.

## History of the Japan Dance Concours

In 2014, the scale of the competition expanded with the creation of block competitions (East and West Japan) and a national competition. It is now one of the largest dance competitions in Japan, with a total of over 3,600 elementary and junior high school students participating in the four block competitions and the national competition. In 2020, all competitions were canceled to prevent the spread of the coronavirus, and dance performances were presented online. In 2021, representative teams were selected through video judging and performances were presented for a national audience. In 2022, the tenth year for the Concours, we were able to hold block competitions and the national competition for the first time in three years.

## Education Support Activities

As part of its educational support activities, Aohata Corporation delivers presentations and lectures and runs jam-making training in high schools and universities, as well as accepting student interns to provide them with a better understanding of the importance and challenges of work. Donations from Aohata have also formed the basis for establishing the Aohata Scholarship Fund in Takehara, Hiroshima Prefecture, where the company's head office is located. This grant scheme awards scholarships to two new students each year.

Kewpie and Kewpie Egg Corporation have been holding "Egg Seminars" for general consumers at supermarkets and sports gyms since 2017. The seminars aim to spread awareness of the nutritional value and health function of eggs. We also publish the "Egg White Paper," which summarizes survey results on public egg perception, ways of eating eggs and an analysis of trends. Our goal is to provide readers with correct egg information and recommend fun ways of enjoying egg dishes.

### Donation Lecture

- Kewpie Research Division for Egg Innovation, Tokyo University of Agriculture

### Joint Research Lecture

- Kewpie and Tokyo Kasei University Egg Delicacy Research Institute

## QPeace Donation-Matching Scheme

The Kewpie Group introduced the QPeace donation-matching scheme in fiscal 2008 to encourage employees to donate to organizations addressing social issues. Recipient organizations are nominated by employees and decided by a selection committee made up of volunteers. In fiscal 2021, 26 group companies participated in the scheme and donated to 11 social and environmental organizations dealing with children, the environment, and food. The scheme provides an opportunity for employees to take a greater interest in social issues.

### How the QPeace Scheme Works

1. Employees nominate organizations they would like to support. Project members, who are employee volunteers, screen nominations and select recipients with the assistance of the secretariat.
2. Employees wishing to participate have donations deducted from their monthly remuneration in 100-yen units, and these donations go into the QPeace reserve.
3. The company matches the sum of donations in the reserve.
4. Donations are sent to each social/environmental organization.

## Other Initiatives for Better Society

### Ecocap Movement

Since 2015, Kewpie Ai Co., Ltd. has been amassing the plastic bottle caps collected at Kewpie Group offices in Tokyo and handing them over to NPOs as Ecocaps to support vaccinations in developing countries.

## FY2022 Collection Results

Weight:	Number of caps:	Donations received:	Number of people vaccinated:
386kg	166,057	3,861 yen	193

## School Uniform Reuse Activity

Since 2020, we have been participating in the "School Uniform Reuse Shop Sakuraya" for families and children who cannot afford to buy school uniforms and school supplies. The Kewpie Group set up collection boxes at the Sengawa Kewport and Shibuya offices for a limited time to collect uniforms.

## Protect the Earth's Environment

The business activities of the Kewpie Group are supported by the abundant gifts of nature, including raw materials. We consider the effects our business activities have on the global environment and believe that we have a duty to pass on a better global environment to future generations. Therefore, we have established "strengthening our social and global environmental initiatives" as one of our management policies, and the entire Group has worked on this policy.

### Sustainability Targets

Material Issues	Initiative Theme	Indicators	FY2030 Target
Effective Use and Recycling of Resources	Elimination and Effective Utilization of Food Loss	Food waste reduction rate (compared to FY2015)	At least 65%
		Effective utilization rate of unused portions of vegetables Main vegetables: Cabbage, etc.	At least 90%
		Reduction rate in volume of product waste (compared to FY2015)	At least 70%
	Reduction and Reuse of Plastic Emissions	Reduction rate in volume of plastic waste (compared to FY2018)	At least 30%
	Sustainable Use of Water	Water usage (basic unit) reduction rate (compared to FY2020)	At least 10%
Deal with Climate Change	Reduction of CO <sub>2</sub> emissions	Reduction rate in CO <sub>2</sub> emissions (compared to FY2013)	At least 50%
Conservation of Biodiversity	Conservation of Biodiversity	Promoting the Kewpie Group Biodiversity Policy to conserve biodiversity and pass on the bounty of nature to future generations	

**Environmental Management**

We have formulated an environmental policy to provide guidelines for Kewpie Group.

**Elimination and Effective Utilization of Food Loss**

In addition to reducing food waste by improving containers and extending shelf life, we are working to make effective use of food resources.

**Reduction and Reuse of Plastic Emissions**

While adhering to our "Quality First" principle, we are also working to reduce the environmental impact of our products and services by making containers lighter and thinner and using recycled materials.

**② Sustainable Use of Water Resources**

We are working towards the effective use of water, which we think is an essential resource that supports people's lives and various industries.

**② Deal with Climate Change**

We are actively working on energy conservation and energy conversion at every stage of procurement, production, logistics, and sales and in our offices.

**② Conservation of Biodiversity**

We are grateful for the bounty of nature and strive to preserve the richness of nature and biodiversity.

- Environmental Management Promotion Structure ●
- Environmental Management Systems ●
- Compliance with Environmental Legislation ●
- Environmental Audit ●
- Environmental Impact of Business Activities ●
- Consideration for Local Environments ●
- Environmental Communication ●

### Policy for Environmental Management

The Kewpie Group's business activities rely on the bounty of nature. We will contribute to the realization of a sustainable society by giving due consideration to the environmental impact of our business activities and striving for compatibility between usability and the global environment based on the "Quality First" principle.

### Kewpie Group Environmental Policy

The Kewpie Group Environmental Policy was established\* in December 1998 in response to growing awareness of environmental conservation in Japan and overseas. We will promote initiatives in conjunction with the Kewpie Group Basic Sustainability Policy.

\* Revised in September 2022

#### Kewpie Group Environmental Policy

We strive to be environmentally friendly in our business activities throughout the value chain, from product design and raw material procurement to production, sales, and consumption.

1. We strive to conserve resources, save energy, reduce waste, promote recycling and develop recycling technologies.
2. We promote the development of environmentally conscious products and the optimization of containers and packages.
3. We voluntarily set standards and strive to preserve the environment, abide by legal regulations, and furthermore, prepare and enhance an environmental management structure that allows us to respond to social demands.

### Material Issues and Targets

The Kewpie Group has established indicators (sustainability targets) to guide its efforts to address the material issues of "effective use and recycling of resources", "deal with climate change", and "conservation of biodiversity" as part of its global environmental efforts.

> [Material Issues and Promotion Framework](#)

### Environmental Management Promotion Structure

The Kewpie Group has established the Sustainability Committee chaired by the director in charge of sustainability. Regarding the environment, subcommittees and collaborative projects have been

## Environmental Management Promotion Structure

The Kewpie Group has established the Sustainability Committee chaired by the director in charge of sustainability. Regarding the environment, subcommittees and collaborative projects have been

established for each theme to address the material issues for sustainability, and efforts have been made to ensure that responses to these issues take root throughout the Group.

## Environmental Management Systems

To provide basic tools for operating a plan-do-check-act cycle for environmental conservation activities, the Kewpie Group has introduced systems based on ISO14001 or its own equivalent standards at each of its facilities.

### ISO14001 Certification Acquisition Status

24 of the 71 Group production locations in Japan have obtained ISO14001 certification. (As of the end of November 2022)

## Compliance with Environmental Legislation

Each location of the Kewpie Group complies with environment-related regulations and operates under its own standards.

\* In FY2022, there were no accidents or violations of related regulations.

## Environmental Audit

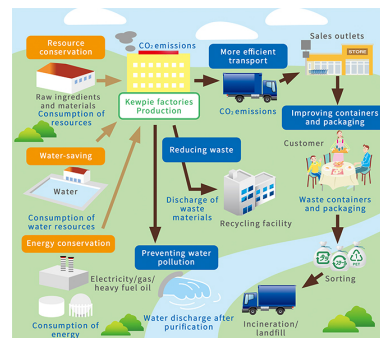

The Kewpie Group has its criteria for legal compliance, development of management and promotion procedures, and facility management standards. We conduct regular internal audits based on the above criteria and promote environmental conservation activities accordingly. Furthermore, we conduct standard-based audit by external institutions at locations with ISO14001 certification to ensure a proper compliance to those standards.

## Environmental Impact of Business Activities

In the production process, we consume natural resources, such as raw materials, ingredients, water, and energy, including electricity, gas, and heavy oil that cause industrial waste products, wastewater, and CO<sub>2</sub> emissions. In addition, we recognize the environmental burden due to product transportation and consumer waste, such as disposed containers and packaging.

Therefore, we recognize that it is our responsibility to identify the environmental burden caused by our business activities and product development, procurement of raw materials, production, selling, and distribution. Based on the recognition, we strive to promote environmental conservation activities on energy and resource conservation, waste reduction, improvement in containers and packaging, streamlining transportation, and pollution control.

### Energy and Material Flows in Kewpie Group Production Divisions

We strive to utilize resources effectively throughout the value chain.

## Energy and Material Flows in Kewpie Group Production Divisions (Fiscal 2022)

### Input

Energy use	Electricity purchased	2,132,000GJ (223,017,000kWh)
	Fuel <sup>*1</sup>	1,192,000GJ
	Total energy	3,324,000GJ
Water use	Water (groundwater, piped water)	8,075,000m <sup>3</sup>

### Output

Atmospheric emissions	CO <sub>2</sub>	168.300 Tons
	NO <sub>x</sub>	38.5 Tons
	SO <sub>x</sub>	8.1 Tons
Emissions to waterways <sup>*2</sup>	Emissions	6,110,000 m <sup>3</sup>
Emissions of waste	Volume of waste (recycling rate)	39,800 Tons (97.5%)

\*1: Including fuel used to generate electricity

\*2: Including rivers and public sewer systems

Applicable facilities: Kewpie Group factories

[> ESG Data Sheet](#)

## Reduction of Generated Waste

### Waste generation reduction targets

- Total volume generated and output per unit of production volume Year-on-year reduction

The Kewpie Group is engaged in the reduction of waste generation as a top priority, through improvements in production yields in manufacturing processes and improvements in containers and packaging.

The main types of waste generated in the production plants include food residue generated in the manufacturing processes, waste plastics from packaging material losses, and the sludge remaining after the treatment of waste water in waste water treatment facilities.

This involves recycling of food residue within the Group, such as converting eggshells into fertilizer and the unused parts of vegetables into animal feed, and outsourcing of the recycling of waste products, etc. Working toward the 100% recycling of waste products, etc. generated in our production plants (zero landfill disposal or incineration without energy recovery).

In FY2022, the amount of waste totaled 39,800 tons (4.3% decline from the previous year) and the amount of waste emitted per ton of product produced (output rate) was 52.4kg (3.0% decrease from the previous year).

The recycling rate for FY2022 was 97.5%. Also, 28 out of 71 production locations achieved a 100% factory recycling rate.

### Volume of waste generated\*

Figures are for Kewpie Group production plants

\* Excludes bi-products that are recycled within the Group, e.g. eggshell powders.

\* The significant decline can be attributed to the partial disposal of the salad and delicatessen sector by sale.

## Consideration for Local Environments

---

Kewpie Group production facility operations consider nearby residents and local environments.

### Preventing Water Pollution

---

We have set voluntary water quality standards for discharge of water after purification in wastewater treatment facilities, and comply with standards applying in each region. We also ensure that tanks for liquid ingredients, fuel, etc. are leak-proof, and conduct exercises to prepare for the unlikely eventuality of such substances seeping into public water areas or groundwater.

### Preventing Atmospheric Pollution

---

Operation of equipment such as boilers and co-generation systems is managed appropriately, and we carry out regular checks, maintenance, and smoke measurement. We are progressively shifting to fuels for boilers, etc. that emit low levels of soot, dust, and sulfur oxide.

### Controlling Noise and Odors

---

We deal with odors arising from wastewater treatment and cooking by improving processes and installing deodorizing equipment. To prevent noise, we install soundproof walls, conduct noise assessments when introducing new equipment, and issue instructions and guidelines to employees and contractors.

## Environmental Communication

---

All business activities at the Kewpie Group have never been feasible without the existence of rich nature. To ensure a sustainable society in the future, we provide our stakeholders with the information of our efforts to identify negative environmental impacts caused by our business activities, reduce its burden, and conserve the environment.

### Environmental Education

---

At the Kewpie Group, we raise employees' awareness towards environmental conservation and conduct environmental education to put their awareness into practice.

Our efforts also include seminars specifically designed for environment-related operations among departments within the Group, as well as supervisions on wastewater and waste management on a regular basis.

Furthermore, at each location, we offer general education regarding environmental issues and hold drills to prepare for environment-related emergencies.

# Elimination and Effective Utilization of Food Loss

Policy for Effective Use of Resources ●      Response to Food Loss Reduction ●  
 Promoting Effective Utilization ●

## Policy for Elimination and Effective Utilization of Food Loss

As part of its crucial responsibilities as a food manufacturer that uses limited food resources, the Kewpie Group has been working to reduce food loss and make effective use of resources. In recent years, climate change has affected the yield and quality of agricultural products and other raw materials, so it has become increasingly important to reduce food loss. Customers and other stakeholders are also showing growing interest in reducing food loss, and we will continue working to meet their expectations.

The food loss that occurs at each stage of the supply chain

## Response to Food Loss Reduction

At the Kewpie Group, we will continue to implement various measures at each stage of the supply chain and work together within the Group to reduce food loss.

### Reducing Food Loss in Manufacturing

To minimize food loss during the production of delicatessen foods dishes, Deria Foods Co., Ltd. has introduced weighing and verification systems at each step of the production process to achieve the optimal amounts of raw materials, ingredient preparation, and production quantities, and to control losses from excess waste.

By tracking the data, we can grasp the actual situation of food loss, analyze key factors, and take actions. By repeating this cycle, we are working every day to minimize food loss.

### Reducing Food Waste after Distribution

The Kewpie Group is working to reduce food loss by extending the best-before dates by making improvements to production methods, containers and packaging, and by changing best-before dates to show the year and month.

When Started	Target	Details
Sep 2022	All Kewpie Aeru Pasta Sauce series items	Changed to year/month display Best-before dates extended
Sep 2022	31 items in Kewpie Yasashii Kondate nursing care foods series	Best-before dates extended to 25 months
Jun 2022	Increased volume of Salad Club's Cut Lettuce	Maintaining production systems and supporting reduction of production food loss

Mar 2022	Salad Club Cabbage for Frying: Cut vegetables for heating	Achieved the industry's longest shelf life of 7 days (processing day plus 7 days)
Feb 2022	Kewpie Three-minute Cooking soup ingredients of Yasai wo Tabeyou (Let's eat vegetables!) series	Changed to year/month display Best-before date extended from 12 to 13 months
2022	Potato salad and other delicatessen items	Extended shelf life by Cold Pressed Fresh Manufacturing Method® * Food is processed at low temperature and high pressure to retain original texture and color of ingredients and extend shelf life while preserving flavor
Apr 2019	Salad Club Shredded Cabbage	Expiry date extended by one day (processing date + 5 days)
Mar 2019	Part of Salad Club Sozai Pouch (ingredients pouch) series products	Best-before dates extended Changed from year/month/date to year/month display
Sep 2018	47 items in Kewpie Yasashii Kondate nursing care foods series (best-before dates: 12 or 18 months)	Best-before dates extended Changed from year/month/date to year/month display
Jan 2016	Kewpie Mayonnaise Kewpie Mayonnaise Half (Reduced Fat)	Best-before date extended from 10 to 12 months

## Reduction in Product Waste

The main causes of product waste are the gap between production based on demand forecasts and actual sales and returns due to unsold products at the distribution stage. With the cooperation of each company and department, we are working to solve these issues by actively donating to food banks.

### A Working Group with the Objective of Reduction in Food Loss that Integrates Production, Sales, and Distribution

Since 2015, related departments hold a working group every month. At this working group, we focus on "product inventory" and discuss various issues and solutions surrounding production to distribution. Thanks to such monthly engagement, we have seen a consistent rise in the awareness of food loss within the company.

### Efforts to Reduce Product Returns in Collaboration with Business Partners

We work with distributors and wholesalers in the Kanto area to reduce the amount of waste due to products not being sold. By reviewing the product sales trends at each store and optimizing product delivery, we have achieved zero returns.

We will continue to promote internal and external collaboration to reduce product waste throughout the supply chain.

## Recipes to Reduce Food Waste

On our Totte-Oki Recipe (best recipes) website, which introduces various food preparation menus, since 2019 we have been introducing recipes developed at Tokyo Kasei University to make use of cabbage cores, lettuce outer leaves, and broccoli stalks.

[Recipes  
\(Japanese site only\)](#)

Three-minute Cooking, a Kewpie-sponsored television program, give viewers timely and easy, convenient, daily menu recipe suggestions. As consumers' environmental responsibility has become a daily interest, we are also incorporate the concept into our programs. We introduce recipes that reduce environmental impact and also can be easily incorporated into daily cooking. We proactively introduce techniques to use ingredients efficiently and without waste, and ideas that lead to energy conservation, and provide opportunities to be a green consumer.

Logo

## Promoting Effective Utilization

The Kewpie Group is working on various initiatives in collaboration with stakeholders to make effective use of food resources.

### Biogas Power Generation from Food Waste\*

The process of manufacturing a wide variety of mayonnaise products generates food residue, as in the case of mayonnaise discharged from piping when shifting production from one product to the next. We at the Kewpie Group have succeeded in biogas power generation from the food residue generated in production processes.

This initiative is being implemented at Kewpie's Goka Plant, Nakagawara Plant, Izumisano Plant, Kobe Plant, and Kpack Co., Ltd., a group company.

\* Our biogas power generation is a way to generate electricity from biogas produced through methane fermentation from food waste and livestock waste from pig farms.

The Kewpie Group is working actively to eliminate food loss at production sites as part of its so-called Mudatori activities (work improvement activities by employees to heighten efficiency and productivity). We will continuously strive to reduce food loss daily and consider the use and recycling of resources for the future. With the cooperation of group employees, each plant will lead the effort to turn negative environmental factors into positive ones.

Yuki Matsubara  
Production Division  
Kewpie Corporation

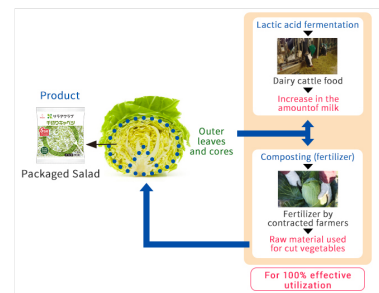

### Unused Portions of Vegetables

The Kewpie Group is engaged in finding ways to make effective use of the unused parts of vegetables used in the processing of salads and delicatessen foods. These unused portions include the core, calyx, outer leaves, and peel.

#### Unused Portions of Leafy Vegetables

In FY2017, the cut vegetables production plant, Green Message, had success in converting leafy vegetables, such as cabbage and lettuce, into stock feed, something that had previously been considered difficult to do on a commercial scale. In a joint research project between Kewpie Corporation and Tokyo University of Agriculture and Technology, it was reported that dairy cattle that were fed this feed produced greater yields of milk.

Salad Club Co., Ltd. takes the unused parts of vegetables such as outer leaves and cores generated when producing packaged salads at its seven directly operated plants and turns them into feed and compost to be utilized by contracted farms and other customers.

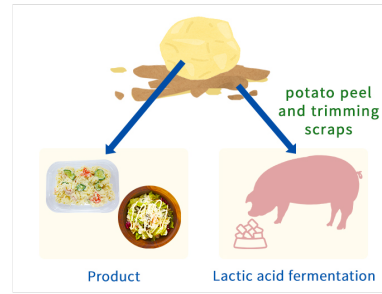

Effective use of unused parts of vegetables (e.g. cabbage)

### Unused Portions of Potatoes

At the Shunsai Deli Co., Ltd. Akishima Plant of the Deria Foods Group, potato peel and trimming scraps from the production process of potato salads are liquified using special technologies to make feed for pigs.

This technology is connected with production and stable logistics of safe domestic feed, which is a challenge in the pig farming industry, and also helps create a recycling-oriented society that makes use of food residue.

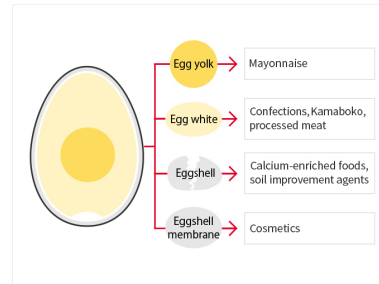

Unused Portions of Potatoes

### 100% Effective Use of Eggs

The Kewpie Group produces a variety of processed egg products besides mayonnaise. 10% of the eggs produced in Japan are used by the Kewpie Group.

Kewpie Mayonnaise is made with the egg yolks, and the whites are used as food ingredients in processed seafood paste products such as kamaboko, and confectionery products such as cakes.

The approximately 28,000 tonnes of eggshells generated annually are also put to effective use in soil improvement agents, an additive for calcium-enriched foods, and other products, with 100% of eggshells being recycled. We are also working on advanced uses for eggshell membranes, such as in cosmetic products.

Effective use of eggs

### Egg Shells Fortify Rice and Strengthen Human Bones

The Kewpie Group is conducting a joint research on the value of egg shells as fertilizers with Professor Yoshimasa Tsujii and Associate Professor Taku Kato from the Faculty of Applied Biosciences at the Tokyo University of Agriculture. So far, we have been able to determine that adding egg shell fertilizers to rice paddies reduces the effects of unseasonal weather, such as extreme heat, on the rice. This improves harvest yield and enhances rice quality. Since rice makes up most of Japan's crop acreage,\* we are hopeful that egg shells can be effectively utilized in the future, not only by the Kewpie Group but also across the whole country.

Furthermore, a separate joint study conducted with the National Institute of Nutrition in Hanoi, Vietnam revealed that calcium from egg shells (biomaterial consisting mainly of calcium carbonate from egg shells finely ground for eating purposes) improves bone density in humans. This shows that egg shells can contribute to resolving the global issue of osteoporosis (bone weakness) that is emerging as the population ages. In Vietnam, we are currently selling a nutritional supplement product that contains egg shell calcium while also working to raise awareness and propose the solution to schools and medical facilities. In this way, we are striving to improve children's physical build and resolve the issue of osteoporosis among the elderly.

\* Based on the 2018 statistics from the Ministry of Agriculture, Forestry and Fisheries on the aggregated planted (growing) area of agricultural crops and utilization rate of cultivated land

#### Message

**Our Challenge Going Forward is to Uncover the Full Potential of Egg Shells.**

We believe calcium, which is the main component of egg shells, not only strengthens each of the cells in a plant but also facilitates various bioactivities within the cells. Meanwhile, global climate change is triggering extreme heat to such extents that even humans are having a hard time coping. As one of its physiological actions, calcium plays an important role in filling rice in their hulls during times of high-temperature stress. Egg shells contain a large amount of calcium, and in the context of global climate change they can be seen an agricultural resource that can help protect rice from summer fatigue and provide a stable supply of good-tasting rice.

Associate Professor Taku Kato  
 Laboratory of Soil Fertility and Fertilizers, Department of  
 Agricultural Chemistry, Faculty of Applied Biosciences, Tokyo  
 University of Agriculture

### Function of Eggshell Membranes

Using methods developed by Kewpie, we successfully separated eggshell membranes from egg shells. We discovered that water soluble eggshell membranes can increase type III collagen, which makes skin more smooth and supple. As such, we have been utilizing it as a raw ingredient for cosmetics since 1991.

### Calcium Fertilizer Born from Egg Shells and Vinegar

Kewpie Jyozo Co., Ltd. developed and distributes a calcium fertilizer called "Yokatsusu," which is made by dissolving egg shells in vinegar.

Regularly spraying the fertilizer on the leaves of vegetables, fruits and flowers prevents calcium deficiency and allows the plants to grow healthily.

Since the product is derived from food products, it is both human and environmentally friendly and can be used without concern.

### History of Utilizing Egg Shells

1956: Began sun-drying egg shells and selling them to farms as soil conditioner

1969: Installed equipment for crushing and drying egg shells (former Sengawa Factory)

1981: Began selling egg shells as a source of calcium for food products (achieved by developing membrane-removal technology)

1991: Processed eggshell membranes and began selling them as a raw ingredient for cosmetics

2007: Began selling egg shells as a raw material for construction materials and regular commodities (wallpaper, tires, etc.)

2012: Began research on rice grown using egg shell fertilizers

2017: Began selling Egg Shell Calcium Sauce as a nutritional supplement product in Vietnam

2019: Our egg shell initiatives won the "3Rs (Reduce, Reuse, and Recycle) Promotion Merit Awards" for the Minister of Agriculture, Forestry and Fisheries Award

2020: Our egg shell initiatives won the "Food Industry Mottainai (Reducing Wastefulness) Awards" for the Ministry of Agriculture, Forestry and Fisheries' Food Industry Affairs Bureau's Top Award

2021: The video "Effective Use of Eggs" won the "Green Food System Promotion Award" at the Sustainer Award 2021.

## Reduction and Reuse of Plastic Emissions

Approach to Reduction and Reuse of Plastic Emissions      Kewpie Group Plastics Policy

Plastic Reduction in Container and Packaging Design

Reducing Plastic in Manufacturing and Distribution

### Approach to Reduction and Reuse of Plastic Emissions

The Kewpie Group uses plastics for food containers and packaging. While plastics offer advantages such as being light and hard to break, it has been pointed out that plastics have an impact on the global environment, including in relation to marine plastic waste.

The Kewpie Group recognizes that plastic waste is a material theme that has a significant impact on ecosystems and the environment, and is implementing initiatives to reduce the use of virgin petroleum-derived plastics and to encourage resource recycling.

### Kewpie Group Plastics Policy

In 2019, the Kewpie Group formulated the Kewpie Group Plastics Policy and is accelerating efforts to reduce plastics used in business activities aiming to create a circular economy.

\* Updated in 2022

**Kewpie Group Plastics Policy**

We will help realize a sustainable circular economy by implementing 3R+Renewable.

- We consider reducing environmental impact in design from the development stage.
- We cooperate and promote this throughout the value chain.

#### Main Initiatives to be Pursued Going Forward

- Further reductions in the amount of plastics used, mainly through container weight reduction
- Introduction of recycled plastics and biomass plastics
- Container and packaging design for easy sorting
- Joining industry initiatives to promote the recovery and recycling of plastics

### Plastic Reduction in Container and Packaging Design

Product containers and packaging are essential to maintaining the quality of the product and preserving its good taste, but their production consumes energy and they turn into waste after use. The Kewpie Group remains committed to simplifying and reducing the weight of containers and packaging.

## Creating Lighter, Simpler Packaging

When Started	Target	Details
Mar 2022	Soft Rice Crackers with Vegetables, Kewpie Baby Snacks series	Reduced amount of plastics used by 35% by changing materials used for outer packaging, individual packaging, and trays. Also, ease of recycling considered by changing to a single material
Feb 2022	Salad Club - package film	Changed standards for films used for packaged salads (making thinner and smaller in size)
Jan 2022	Salad Club - packaged salad trays	Weight of packaged salad trays reduced about 10% compared to conventional products
Mar 2021	Kewpie Smile Cup baby food series, Yasashii Kondate nursing care foods series	Reduced amount of plastics by eliminating outer lid on top
Mar 2021	Tamago Tappuri Boro (round biscuits with plenty of egg), Kewpie Baby Snacks series	Reduced amount of plastics used by about 25% by changing inner and outer packaging
Apr 2019	380-ml Kewpie dressing	Reduced weight of bottle material used without reducing strength or changing shape profile

## Using Packaging With a Lower Environmental Impact

When Started	Target	Details
Aug 2022	Verde Toast Spread series	Reduced plastic use by about 10.9% by making laminated tubes in containers thinner
Jun 2021	Kewpie Tasty Dressing	Uses containers that include recycled plastics* * Plastics recycled by mechanical (physical) recycling, a method of recycling plastic bottles mainly used for soft drinks, after being crushed, washed, and treated at high temperatures for a certain period of time to remove contaminants.
Aug 2020	Salad Club Sozai Pouch (ingredients pouch) series	Pouches made with plant-derived plastics* are used in 12 of total 19 products * Plant-derived plastics: Biomass plastics made from renewable organic resources (sugarcane byproducts, etc.)
Feb 2020	Kewpie Dressing (stick type)	Uses about 15% recycled plastic in outer packaging

## Reducing Plastic in Manufacturing and Distribution

In addition to reducing the amount of plastic in product containers and packaging, the Kewpie Group is working to reduce plastic at every stage of its operations, from procurement to manufacturing, distribution, and consumption.

## Recycling of Product Distribution Containers

---

### Plastic Containers for Liquid Eggs

Kewpie Egg Corporation is engaged in an initiative\* to recycle plastic containers for liquid eggs and other egg products and to use recycled products. The recycling of plastic containers that were previously disposed of has led to a reduction in plastic waste.

\* Started in 2020

Left: Recycled product Right: Existing product

## Sustainable Use of Water Resources

- Approach to Sustainable Use of Water Resources ●
- Water Risk and Water Stress Assessments ●      Effective Use of Water ●
- Water Conservation Initiatives ●

### Approach to Sustainable Use of Water Resources

Water is the essential resource for human life and various manufacturing processes. Meanwhile, we use a large amount of water to clean or cool agricultural raw materials in our manufacturing processes.

To continue our business, we consider water as a vital and limited resource, ensure its effective use, and reduce the environmental impact when collecting and discarding water.

### Water Risk and Water Stress Assessments

To determine the impacts of water risk on Kewpie Group operations, we assess water stress (water demand vulnerability) using the Aqueduct tools of the World Resources Institute. The risk of inundation from flooding and storm surges in Japan is assessed using hazard maps, and risks in countries other than Japan are assessed using Aqueduct.

	Number of plants	Flood risk	Storm surge risk	Water stress
Japan	71	26	4	0
China	4	1	2	1
Asia	4	2	1	0
U.S. and Europe	2	0	0	1

● Based on hazard maps    ● Based on Aqueduct

### Effective Use of Water

We, the Kewpie Group, are committed to the improvement of our production methods, effective use of water, and reduction in overall water usage. Our manufacturing plants consumed a total of 8,075,000 m<sup>3</sup> of water in FY2022. Water usage per tonne of production (water usage per unit) was 10.6 m<sup>3</sup>.

### Water Conservation Initiatives

The Kewpie Group has introduced advanced wastewater treatment systems to conserve water as part of its efforts to create factories designed with people and the environment in mind.

## Use of Highly Treated Water

---

As part of water-saving activities in production processes, the Deria Foods Group uses visualization and digitization to ascertain water consumption, analyzes key factors, and takes actions to minimize the amount of water used.

In addition, the Shunsai Deli Co., Ltd. Akishima Plant has introduced a facility utilizing membrane treatment (reverse osmosis) technology to reuse wastewater from the production line, generating an average of 160 tons of clean water from wastewater per day. Some of the uses of that water include watering trees, cleaning floors, sprinkling roofs, and the outdoor cooling units of air conditioning equipment.

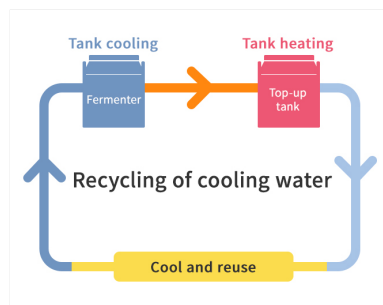

Reverse Osmosis (RO) Filtration Equipment

## Effective Use of Cooling Water

---

At Kewpie Jyozo Co., Ltd., cooling water used during vinegar production is not discharged directly from the plant, but used as cooling water at different temperatures to reduce the amount of cooling water used.

## Controlling Excess Water Use

---

For Salad Club products, we have changed processes for cleaning cut vegetables from using a constant stream, to applying water only when needed, and we are more carefully controlling the amount applied in order to reduce water consumption.

## Deal with Climate Change

- Response to Climate Change Policy ●
- TCFD Initiatives ●
- Production Initiatives ●
- Logistics Initiatives ●
- Office Initiatives ●

### Response to Climate Change Policy

To reduce CO<sub>2</sub> emissions, a cause of climate change, the Kewpie Group is actively working for energy conservation and an energy shift across the entire value chain -- procurement, production, logistics, sales, and office.

Reduction of CO<sub>2</sub> emissions is a key sustainability issue, and the Kewpie Group is working to further implement our response to climate change, having set our own domestic CO<sub>2</sub> emission reduction targets for the Group in Japan.

### Reduction of CO<sub>2</sub> Emissions

In response to the progression of climate change, we have reviewed and revised upward our CO<sub>2</sub> emission reduction targets.

All companies within the Kewpie Group are working to reform manufacturing and processing operations and discussing the installation of renewable energy sources to achieve a carbon-free society. To this end, in addition to existing initiatives, we are looking to improve efficiency at production plants and install energy-saving equipment to further reduce CO<sub>2</sub> emissions.

In terms of distribution, we are actively promoting a modal shift from long-distance truck transportation to rail and ship, while also engaging in joint transportation operations with manufacturers in other industries.

In our offices, we are working to optimize energy usage by utilizing new technologies such as AI.

> [Material Issues and Promotion Framework](#)

### Making Use of Renewable Energy

The Kewpie Group is steadily installing renewable energy at its locations in Japan and abroad. Under the "on-site PPA model," the Kewpie Kobe Plant provides space on its rooftop for a solar power generation system, which is installed and managed by Kansai Electric Power Company. From December 2022, we switched to 100% renewable energy sources by supplying power from renewable energy sources through Kansai Electric Power Company and purchasing J-credits\* equivalent to the CO<sub>2</sub> resulting from the fuel (steam) supplied by Mitsui & Co. Ltd. This initiative is expected to result in the Kewpie Group's first net-zero plant, which will reduce CO<sub>2</sub> emissions by approximately 3,680 tons per year.

In August 2022, Kitakami Delica Co., Ltd. provided space for a solar power generation system, which will be installed and managed by Loop Inc. under the "on-site PPA model," generating 5.3% of the plant's total electricity consumption, which is expected to reduce annual CO<sub>2</sub> emissions by approximately 85 tons per year.

We will continue to actively switch to renewable energy sources for power consumption at the Group's offices and production sites.

\* The J-credit system is a system in which the government certifies the amount of greenhouse gas emission reductions and absorption as credits.

### CO<sub>2</sub> Emissions

Targeted plants: Kewpie Group production plants  
Emission intensity are calculated based on the Kewpie Group domestic production plants

Installation status

Year installed	Site
June 2023	Owari Plant, Kewpie Egg Corporation
March 2023	Sanda Plant, Kewpie Egg Corporation Enshu Plant, Salad Club, Inc. (Additional installation of panels)
January 2023	KEWPIE MALAYSIA SDN.BHD.
August 2022	Kitakami Delica Co., Ltd. (on-site PPA model)
February 2022	Kewpie Kobe Plant (on-site PPA model)
December 2021	BEIJING KEWPIE CO., LTD.
December 2021	KEWPIE VIETNAM CO., LTD.
November 2021	Ome Plant, Shunsai Deli Co., Ltd.
February 2021	Hanno Plant, Kewpie Egg Corporation
April 2020	Akishima Plant, Shunsai Deli Co., Ltd.
April 2018	KEWPIE (THAILAND) CO., LTD.
December 2016	Kewpie Goka Plant
February 2016	Enshu Plant, Salad Club, Inc.
September 2015	Fujiyoshida Kewpie Co., Ltd.*
January 2015	Green Factory Center Shirakawa
April 2014	Shiga Plant, Kewpie Jyozo Co., Ltd.
October 2013	Sengawa Kewport
April 2013	Head Office Plant, Kpack Co., Ltd.
March 2012	Kewpie Fine Chemicals Headquarters Goka Plant

\* In 2021, the business was transferred to Hakubaku Co., Ltd. The solar panels installed by Kewpie on that site are still owned and managed by Kewpie.

Kewpie Kobe Plant solar panel facility

Kitakami Delica Plant solar panel facility

## TCFD Initiatives

The operations of the Kewpie Group are highly dependent on the blessings of nature. Accordingly, these operations could incur impact from climate change in a variety of ways, including through lower harvest yields and reduced quality of ingredients. Moving forward, we will address and respond to future climate-change related events as management risks, while at the same time identifying new opportunities and incorporating them into our corporate strategies.

The Kewpie Group endorses the Task Force on Climate-related Financial Disclosure (TCFD)<sup>\*1</sup> and has joined the TCFD Consortium,<sup>\*2</sup> which serves as a forum for collaborations among companies and financial institutions that support TCFD. Internally, the Kewpie Group created the TCFD Project and has engaged in its own initiatives since 2021.

\*1 Established by the Financial Stability Board (FSB) in 2015 at the behest of the G20. The TCFD recommends that companies assess the financial impacts of climate change risks and opportunities on management and disclose information pertaining to governance, strategies, risk management, metrics and targets.  
[> TCFD website](#)

\*2 Established in 2019 as a forum for discussing efforts leading to effective corporate information disclosure and the disclosure of information facilitating appropriate investment decisions by financial institutions and other organizations. Companies and financial institutions that support the TCFD recommendations are promoting the initiative.  
[> TCFD Consortium website](#)

[FY2021 TCFD Report \(416KB\)](#)

[FY2022 TCFD Report \(504KB\)](#)

## Production Initiatives

### Reducing CO<sub>2</sub> Emissions by the Production Division

The Kewpie Group is committed to saving energy by improving the efficiency of production processes and by installing new equipment. We are converting from using Heavy Fuel Oil A to city gas and natural gas, and we are promoting the use of co-generation and solar power. We are also working to reduce CO<sub>2</sub> emissions by sharing and developing the outstanding initiatives taken by group plants.

### Promoting Energy Conservation in the Production Division

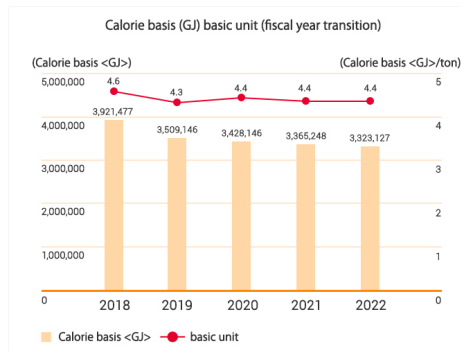

The Kewpie Group is promoting the "visualization of energy use" by installing energy measurement devices in all processes at production sites, improving facility operation and maintenance, and introducing energy-saving equipment to promote energy conservation.

#### Energy Conservation Reduction Targets for the Production Division

Reduce energy consumption by 1% or more from the previous year.

Energy consumption at Kewpie Group production plants in FY2022 was 3,323,127 GJ, a decrease of 1.3% from the previous fiscal year. Energy consumption per ton of production was 4.37 GJ (calorie basis), about the same as the previous fiscal year.

The decrease in consumption and the basic energy unit is mainly due to efficient production through factory reorganization regarding condiment products, efficient production through business reorganization in the egg business, and planned energy-saving facility upgrades for each business.

Targeted plants: Kewpie Group production plants

### Utilizing Natural Refrigerants

The Kewpie Group is installing energy-saving equipment and working to optimize the operation of our facilities. By incorporating natural refrigerants when upgrading our freezer units, we have reduced CO<sub>2</sub> emissions and eliminated fluorocarbon use.

Ammonia freezer units

Installation status

Year installed	Site
2021	Kewpie Egg Corporation, Owari Plant
2020	Kewpie Egg Corporation, Itami Plant
2018	Kewpie Nakagawara Plant
2015	Kewpie Egg Corporation, Tsukuba Plant

## Logistics Initiatives

The Kewpie Group is collaborating with business partners and Group companies to reduce the environmental burden of all transport and delivery operations, from the transportation of raw materials to the delivery of products.

We are working to improve efficiency by shortening transportation and delivery distances and by improving load efficiency. We also implement eco-friendly driving, which consumes less fuel and offers greater safety. Furthermore, we are promoting a modal shift from long-distance truck transportation to rail and ship to reduce CO<sub>2</sub> emissions.

CO<sub>2</sub> emissions from the transport and delivery of Kewpie products in FY2022 were 20,598 tons, down 6.0% from the previous year.

### CO<sub>2</sub> Emissions from Transportation and Delivery

		FY2021	FY2022	Year-on-year comparison
Kewpie products	Transport volume (1,000 tonne-km)	138,443	128,385	-6.0%
	CO <sub>2</sub> emissions (tonnes)	21,924	20,598	-6.0%

### Promoting a Modal Shift

We acquired ten exclusive-use 31-foot containers (of which four are freezer containers) and are coordinating with transportation professionals to promote modal shifts.\*1

In July 2019, Kewpie was certified with the Eco Rail Mark as a company that uses cargo trains for more than a certain percentage of product transportations.

Our modal shift ratio\*2 was 33% in FY2022.

\*1 Modal shift: Shifting long-haul trucking of 500 km or more to container transportation via railroads and ships.

\*2 Modal shift ratio: Ratio of tonnes shipped by railroads and ships to total tonnes shipped 500 km or more.

We acquired six 31-foot containers for rail and ship transport and are promoting modal shifts in coordination with freight carriers.

Change in the modal shift ratio

## Joint Transportation Initiatives with Businesses in Other Industries

Having completed Sengawa Kewport in October 2013, the Kewpie Group is proceeding to consolidate the location of its offices, including the head office and research departments. We have adopted energy-saving designs and equipment, are collaborating between offices to share know-how on achieving the best energy-saving performance, and are making ongoing operational facility improvements and repairs.

## Office Initiatives

Since February 2022, we have been procuring electricity with environmental value (FIT Non-Fossil Certificate with Tracking)<sup>\*1</sup> generated by solar panels at three Group sites (Green Factory Center Shirakawa, Fujiyoshida Kewpie Co., Ltd.,<sup>\*2</sup> and Salad Club Enshu Plant) from the Japan Electric Power Exchange through TEPCO Energy Partner, Incorporated. The electricity used at the Kewpie Shibuya Head Office and Sengawa Kewport is now 100% renewable. This initiative is expected to reduce CO<sub>2</sub> emissions by approximately 1,600 tons per year.

<sup>\*1</sup> This is a certificate representing the "value being derived from a non-fossil power source" of electricity generated by a non-fossil power source. The certificates are procured by retail electricity providers in the non-fossil value trading market and used in electricity sold to customers, thereby allowing them to reduce greenhouse gas emissions.

<sup>\*2</sup> In 2021, the business was transferred to Hakubaku Co., Ltd. The solar panels installed by Kewpie on that site are still owned and managed by Kewpie.

## Initiatives at the Shibuya office

The Shibuya office (Shibuya Toyu Building) of the Kewpie Group has a double-skin glass facade that achieves a high degree of thermal insulation from natural ventilation between the glass layers. The office has installed highly efficient air conditioners, LED lighting, and other energy saving equipment.

Through such environmental designs, the Shibuya office building has been given an overall rating of A by the Comprehensive Assessment System for Built Environment Efficiency (CASBEE). In addition, the building has been designated a project for receiving interest subsidies to promote green financing.\*

The double-skin glass facade of the Shibuya office.

\* Project for receiving interest subsidies to promote green financing: These are projects selected through a public offer by the Ministry of the Environment to receive a subsidy for part of the interest paid on the financing of capital expenditures addressing global warming.

## Initiatives at Sengawa Kewport

Energy saving features of Sengawa Kewport include air wells providing natural ventilation, a cogeneration system, solar power generation, and LED lighting. To maximize the performance of energy saving design, we are deepening our collaboration with equipment makers and are surveying many employees at Sengawa Kewport to operate energy saving equipment more precisely. Furthermore, in collaboration with Tokyo Gas Engineering Solutions Corporation, we established an optimized operational pattern based on weather forecast data and the operating status of air conditioners (chillers, heat pumps, gas boilers, and cogeneration power generation) using AI on a cloud server. We are taking further steps to automate driving.

Natural ventilation system

## Conservation of Biodiversity

- Approach to Conservation of Biodiversity ● Kewpie Group Biodiversity Policy ●
- Procurement that Considers Biodiversity ●
- Kewpie Group Environmental Conservation Activities ●

### Approach to Conservation of Biodiversity

The business operations of the Kewpie Group are closely tied to an abundant natural environment. Upholding the spirit of "good products begin with good ingredients," we are thankful for nature's blessings, we will endeavor to preserve a natural environment that is bountiful and biologically diverse, and we will leave future generations with a sustainable society.

### Kewpie Group Biodiversity Policy

**Kewpie Group Biodiversity Policy**

The Kewpie Group appreciates the abundant nature that produces raw materials and strives to preserve biodiversity and restore and regenerate ecosystems, in its aim to be "nature positive."

1. We understand our dependence on and impact on biodiversity throughout the value chain.
2. We strive to reflect this degree of dependence and impact in our management decisions, and to disclose information.
3. We actively engage in activities to minimize negative impacts on biodiversity, while at the same time restoring and regenerating ecosystems.
4. We promote biodiversity conservation efforts throughout the value chain through dialogue and collaboration with stakeholders.

### Procurement that Considers Biodiversity

The "Kewpie Group Fundamental Policy for Sustainable Procurement" was formulated in FY2018 and promotes procurement that respects the environment and human rights.

**Palm Oil**

In FY2018, we joined the RSPO\* to promote the sustainable procurement of palm oil.  
\* RSPO: Roundtable on Sustainable Palm Oil

**Paper**

Together with cardboard and paper manufacturers, we promote the use of FSC certified materials under proper forest management.

> [Promotion of Sustainable Procurement](#)

## Kewpie Group Environmental Conservation Activities

Based on the Approach to Preserving the Natural Environment, the Kewpie Group has been engaging in environmental preservation activities for many years.

From September 2007 to March 2020, the Kewpie Group participated in the Yamanashi Forest Creation Commission and founded the "Kewpie Forest" in Fuji Hokuroku, located in Fujiyoshida, Yamanashi Prefecture. There, we carried out forest conservation activities to protect and cultivate water sources.

Our employees and their families volunteered, working with local NPOs to plant trees and thin the forest. They also held workshops to learn about the various issues faced by the surrounding environment. The initiative created an opportunity to gain a deeper understanding of biodiversity and the natural environment.

Furthermore, from 2014 to 2019, the Kewpie Group conducted preservation activities in the marsh areas of the Kiritappu Wetland, which is registered and recognized by the Ramsar Convention as Japan's third largest wetland. Kewpie also provided financial support to the activities of the NPO Kiritappu Wetland National Trust.

Going forward, we will work to gain a greater understanding of how the Kewpie Group's business activities affect the natural environment. We will revise and improve our activities accordingly so that we can pass on a sustainable society to the next generation.

- Sustainable Procurement of Paper ●
- Aohata Initiatives with Fruit Growers ●

### The Fundamental Policy for Sustainable Procurement

We strongly believe that "Good products begin with good ingredients". However, in addition to the focus on quality, we must also examine the impact on the environment and human rights caused by our products. Together with our suppliers, we analyse the impact of our products and work to increase sustainability while sourcing quality raw materials.

1. We will conduct all trade in compliance with the law and in conformity with international rules and norms while taking strong measures against corrupt practices.
2. We will engage in fair and ethical trade and use appropriate procedures in managing confidential information and intellectual property.
3. We will protect human rights and refrain from discriminatory language or conduct, inhumane treatment, or any involvement in human-rights abuses.
4. We will respect the labor rights of employees, adopting sound labor practices and providing a safe and clean work environment.
5. We will work to prevent pollution and environmental degradation at the local and global levels through the sustainable use of resources.
6. We will seek to minimize impacts on the ecosystem with a view to securing sustained access to safe, high-quality ingredients.
7. We will contribute actively to support the sustainability of the local communities where our ingredients are produced.
8. We will encourage our suppliers to adopt the foregoing policies.
9. We will report publicly on the progress of the foregoing policies as appropriate.

### Kewpie Group Supplier Guidelines

To realize the Kewpie Group's Fundamental Policy for Sustainable Procurement, we have established the Kewpie Group's Supplier Guidelines for our valued suppliers (i.e., all suppliers including our business partners). With these guidelines, we aim to achieve sustainable procurement and shared prosperity with our suppliers by resolving issues in the supply chain based on mutual understanding.

 [Kewpie Group Supplier Guidelines \(Japanese version\) \(519KB\)](#)

### Policy and Activities for Procurement of Chicken Eggs

#### Basic Policy

The Kewpie Group recognizes that the animal welfare of laying hens is one of the most important issues for the sustainable production and procurement of chicken eggs as well as considerations for impacts on quality and environment or human rights.

The Kewpie Group agrees with the five freedoms\* in principles of animal welfare indicated by OIE (World Organization for Animal Health), and we think it is important that the farming laying hens based on OIE's principles. And we recognize that we should have deep consideration for dignity of life of laying hens since we have utilized chicken eggs for our business for a long time.

\*The five freedoms in principles for animal welfare

- Freedom from hunger, malnutrition and thirst
- Freedom from fear and distress
- Freedom from heat stress or physical discomfort
- Freedom from pain, injury and disease; and
- Freedom to express normal patterns of behaviors

#### Activities

We confirm that shell eggs procured and used in the Kewpie Group in Japan are complied with "the animal welfare guidelines for laying hens"<sup>\*1</sup> published and being tried to be standardized by the Japanese Ministry of Agriculture, Forestry and Fisheries.

We have developed and sold products which contains eggs derived from cage-free farms,<sup>\*2</sup> and we have kept working on them with watching customer's demand and reasonable price level for customers carefully.

We have kept discussing with administrations including academic expert, NGO, NPO, and partners in the supply chain of chicken eggs what the sustainable breeding management of laying hens should be. And we have also kept taking actions in the Kewpie Group on behalf of animal welfare by cooperating with these organizations. Shell eggs procured in the Kewpie Group in overseas are complied with standards and legislation in each country and region or considered its social environment in each country and region.<sup>\*3</sup>

\*1 "Guidelines for breeding management of hens that correspond to the concept of animal welfare" by Japan Livestock Technology Association 5th edition (March 2020)

\*2 Breeding style of cage-free farm

The above-mentioned "Guidelines for breeding management of hens that correspond to the concept of animal welfare" mentions the following for the animal welfare.

"The most important thing for the correspondence to animal welfare issue is not the structure of the facility or the situation of the equipment, but daily observation and recording of livestock, careful handling of livestock, and proper feeding management such as quality feed and water. And it is necessary for the parties concerned to fully recognize this and promote it."

\*3 An Attached URL shows the activities regarding the procurement of eggs and egg ingredients in our business in the USA.

[> Procurement of eggs and egg ingredients in our group in the USA](#) 

## Sustainable Procurement of Vegetables

The Kewpie Group offers salads and delicatessen foods made mostly from vegetable ingredients grown in Japan. We therefore consider the procurement of vegetable ingredients crucial to business continuity. Going forward, we will continue to communicate closely with producers to achieve the sustainable procurement of vegetables for the Kewpie Group and the continued growth and development of the producers.

#### Activities

##### Establishment of Recycling-Oriented Agriculture

Salad Club, Inc. is working to get our contracted farmers to utilize unused vegetable leaves, cores, and other unused parts generated at its seven directly managed plants during the production of packaged salads as compost and animal feed. Contract farmers also benefit from the availability of inexpensive domestically produced compost, and the use of organic compost minimizes the environmental impact of their farming activities. By growing vegetables using compost made from unused portions of vegetables and producing products from them, we can build circular processes that do not waste resources, resulting in zero vegetable waste.

Spreading compost at contracted production sites

## Production Awards by the Salad Club

Based on face-to-face interactions with growers, vegetables used in the Salad Club are sourced through “contract purchases” with approximately 400 farms around the country. “Contract purchases” are not just ways to securely source at set prices, but also allows growers to make strategic investments based on a steady income source.

As part of sourcing raw materials safety and reliability, employees from factories and ingredients teams visit farm regularly. Growers are also invited to join factory tours and we proactively work to connect with growers by supporting harvests, providing factory training, and holding barbeques.

Every April, we hold the Grower of Salad Club, an award ceremony to show our appreciation for contracted growers. We evaluate the quality of our primary raw materials and give awards like the Grand Prize, the Award for Excellence, and the Special Award (winners are posted in the Press Release section on the Salad Club website).

We are also building a circular agriculture system by partnering with the producers. We create feeds and fertilizers at our production plants with unused parts of vegetables that are left over from making packaged salad products. We then provide the fertilizers to farms to expand our connections.

## Initiatives to Procure Sustainable Palm Oil

Palm oil is a vegetable oil harvested from oil palms grown in tropical regions, but recent developments have raised issues surrounding human rights abuses for farm workers and large-scale deforestation to develop farmland.

To ensure that we do not use raw materials that contribute to these issues and to help solve those issues, the Kewpie Group established the Kewpie Group Fundamental Policy for Sustainable Procurement in January 2018. Based on that policy, in July 2018, we joined the RSPO (Roundtable on Sustainable Palm Oil) to procure sustainable palm oil for our group in the future.

### About this Initiative

In 2019, we began purchasing RSPO book-and-claim<sup>\*1</sup> certified credits for palm oil procured by the Kewpie Group, and we achieved our goal of purchasing certified credits for raw materials that are 100% palm oil by 2021. Starting in 2022, the Kewpie Group will work to source certified oil through the book-and-claim and mass balance methods.<sup>\*2</sup>

#### \*1 book-and-claim

Certified credits are issued for oil produced by a RSPO-certified manufacturer.  
By purchasing those certified credits, this system supports producers of certified palm oil.

#### \*2 mass balance methods

A certification model in which certified palm oil is mixed with other non-certified palm oil during the production and distribution process.  
While it physically contains non-certified oil, the proportion of palm oil sourced from certified plantations is guaranteed.

[> ESG Data Sheet](#)

## Sustainable Procurement of Paper

The Kewpie Group procures paper and paper products from businesses that do not contribute to new deforestations, comply by the laws of the timber producing region and international human rights standards, and produce products through proper procedures.

We therefore aim to procure paper and paper products that are recognized by forest management certifications (such as the FSC® certification\*). This allows us to confirm that the products were made from recycled paper or, depending on the business partner, through activities that do not contribute to new deforestations or human rights violations.

\* An international forest management certification that ensures products were appropriately procured from responsibly managed forests and that limited forest resources can continue to be used in the future.

## Activities

### Use of FSC-certified Paper

Our Nico Nico Box series for baby food began using FSC® certified paper in March 2019. A change in the design of the box enabled new functions like trays and puppets\* to provide a fun meal experience while also conveying the importance of paper(FSC® N002978).

\* Trays: two cups can be safely held in one hand. Puppet: the animal on the package opens and closes its mouth to encourage babies to chew.

Using the package as a tray

Using the package as a puppet

### Ingenuity of Corrugated Cardboard structure

We push forward reduction of the paper consumption by devising corrugated cardboard structure and making it thinner while maintaining its strength.

### Initiatives to Reduce Packaging (FY2015)

We changed the way we stack palettes for our main product, mayonnaise, when transporting them. By adopting a stacking method that capitalizes on the characteristics of cardboard boxes, we were able to reduce the amount of materials used. Producing less paper waste leads to reducing the burden on the environment. Using this method, we were able to reduce the amount of cardboard boxes used by around 590 tonnes a year.

### Modified Carton Shape

Aohata adopted the use of shelf-ready packaging for the Aohata 55 Jams UD150 series and the Calorie Half series to reduce the use of cartons by approximately 56 tons per year. In 2022, the company changed the carton liner\* used for the Verde Toast Spread series to reduce carton weight and to reduce CO<sub>2</sub> emissions during carton manufacturing, while maintaining carton strength.

Used in FY2022	138,000 sheets per year
Weight reduction	2,500 kg per year
CO <sub>2</sub> emissions reduced during carton manufacturing	1,800 kg per year

\* Liner is containerboard used for the front and back of corrugated cardboard

## Resource Conservation Efforts in Packaging

### The Aohata 55 Jam (small size) carton\*

Change in the size of the flap on the carton resulted in an annual reduction of 14 tons of material and 11 tons of CO<sub>2</sub> from the cardboard manufacturer.

\* Started in 2015

At the same time, we implemented a "Pop Carton" for easy opening and displaying, improving work efficiency at stores.

## Aohata Initiatives with Fruit Growers

The fruit production areas used by the Kewpie Group have expanded worldwide. Based on the understanding that "70% of the taste of a processed agricultural product is determined by its ingredients," we are striving to secure stable supplies of high-quality ingredients by researching cultivation techniques while building trusting relationships with producers.

## Respect for Human Rights

We respect the human rights of all people associated with the Kewpie Group in line with our Motto "RAKU-GYOU-KAI-ETSU." To transit to a structure that realizes sustainable growth, we will promote the mobility of Group human resources in line with the new business framework, expand learning opportunities, and foster career awareness, thereby creating a system that allows diverse human resources to play an active role in the business by enhancing their experience and skills. By leveraging our respective perspectives and know-how, we will enhance our ability to respond to changes in the social environment and risks, while working to strengthen the overall capabilities of the Kewpie Group so that our employees can be healthy and find fulfilment in their work.

## Initiatives for Respect for Human Rights

- Policy for Respect for Human Rights
- Human Rights Management Structure
- Human Rights Due Diligence Process
- Initiatives for Employees
- Supplier Initiatives

### Policy for Respect for Human Rights

As the Kewpie Group, we recognize that all aspects of our business activities may, directly or indirectly, affect human rights. Therefore, to respect the human rights of all the people involved in our business, we have established the Kewpie Group Human Rights Policy.

To realize our corporate motto, "RAKU-GYOU-KAI-ETSU," it is essential that we respect human rights. The directors and employees working at the Kewpie Group act with responsibility so that they do not negatively affect or indirectly violate human rights. We strive to create environments in which everyone can work with a sense of safety and fulfillment. We also hope our suppliers and business partners will likewise abide by this policy, and we will encourage them to do so.

[Kewpie Group Human Rights Policy \(118KB\)](#)

### Human Rights Management Structure

To face a wide range of human rights risks in the value chain of the Kewpie Group, we recognize respect for human rights as a material issue for sustainability.

The human rights risks identified are addressed by the Sustainability Committee, and actions are planned and implemented in cooperation with the relevant committees and departments.

We have also established a reporting helpline within our internal control system to detect violations and take corrective actions. If there is a violation, we will implement remediations to prevent recurrence after consultation with the department concerned.

### Human Rights Due Diligence Process

To tackle the wide range of human rights risks related to the Kewpie Group's value chain, we work according to a human rights due diligence framework.

Of the human rights risks detected, we have identified items pertinent to Group employees and suppliers, and have decided to work toward correcting each of these risks.

The following risks were identified as human rights risks related to the Kewpie Group's value chain based on international standards on human rights.

- Harassment
- Lack of Education and Training
- Discriminatory Response
- Right to Privacy
- Discriminatory Representations
- Freedom of Residence
- Occupational Health and Safety
- Freedom of Expression
- Forced Labor
- Indigenous and Local People's Rights
- Child Labor
- Intellectual Property Rights
- Working Hours
- Consumer Safety and Right to Know
- Freedom of Association
- Bribery and Corruption
- Insufficient or Unpaid Wages
- Poor Supplier Management

## Initiatives for Employees

---

In an environment where various people work, we respect the human rights of all employees and aim to realize a work environment free from discrimination and harassment. Every two years, we conduct an "Employee Awareness Survey" of all employees to ascertain their understanding and awareness of compliance, their satisfaction with their work, and their views on corporate social responsibility. The results of the survey are shared with employees to ascertain whether human rights violations have occurred and examine issues related to the penetration and thoroughness of compliance, which are subsequently reflected in employee awareness-raising activities and training programs.

### Helpline Operation

- In FY2022, there were 28 reports or consultations to the helpline.
- They were mainly reports/consultations concerning harassment and some were regarding deficiencies in workplace support.  
There were no items related to accounting or quality irregularities.
- Our response is to investigate the facts, if there are violations, to take countermeasures, consult with the department responsible about prevention measures, then implement said measures. In cases that are not considered violations, but there is inappropriateness in behavior or response, we aim to correct the situation using warnings, thus improving the workplace environment.
- From the perspective of safeguarding the informant, we prohibit inquiries into, and the pursuit of, or retaliatory actions towards informants. We promote proper implementation by checking that there has not been any retaliation or penalties imposed on the informant after a certain period of time.

[> ESG Data Sheet](#)

## Supplier Initiatives

---

The Kewpie Group is committed to its ingredients. Its work is underpinned by the belief that "Good products begin with good ingredients." It is now necessary to consider not only quality but also the environment and human rights in the supply chain, and we will work on this together with our suppliers. We conduct procurement based on the Kewpie Group's Fundamental Policy for Sustainable Procurement, which was formulated in January 2018. In April 2022, we formulated the "Kewpie Group Supplier Guidelines" for our suppliers. We will strive to reduce human rights risks in our supply chain through the implementation of questionnaires for suppliers and continued communication.

## Initiatives for Empowering a Diverse Range of Talent

- Diversity & Inclusion Initiatives ●
- Initiatives for Human Resources Development ●
- Flexible Work Style Initiatives ●

### Diversity & Inclusion Initiatives

#### The Kewpie Group's Approach to Diversity and Inclusion

Diversity and inclusion are foundations of the Kewpie Group's growth strategy. Based on the understanding that all employees are leaders of diversity and have diverse values, we leverage employee diversity for the growth of the entire Group and to create value for and contribute to society. In addition to an emphasis on understanding and dialogue in the company and among employees, we create opportunities to understand and enhance diversity and inclusion, create opportunities for diverse employees to play an active role, and create career and learning mechanisms that give employees a sense of self-growth. Through all of these efforts, we work to create a corporate culture that supports each employee's individuality and motivation to grow, and in which individuals can fully demonstrate their abilities.

#### Fostering a Corporate Culture That Creates New Value

To ensure that the various perspectives and skills of each employee create new value and improve the overall strength of the Group, we work to promote an understanding of diversity, create a system that allows diversity to flourish, and increase the mobility of human resources. Since 2017, we have been carrying out a diversity survey (Kewpie Corporation only) to explore employees' understanding and awareness of diversity. This survey is used to examine our diversity measures and verify their effectiveness.

Through various initiatives, we strive to create a mentally supportive and safe corporate culture that empowers employees to take on challenges and accomplish goals.

#### Diversity Seminars and Study Sessions

We hold diversity seminars that are open to all Group employees and diversity study sessions for each department and company. By sharing the direction and objectives of diversity promotion, we enhance employees' awareness and accelerate the promotion of diversity.

#### Diverse Human Resources Participate in Important Decision-Making

We have developed the "KEEP20" initiative, in which over 20% of the participants of important meetings are made up of diverse human resources (in terms of age, gender, skills, and careers), to draw out different perspectives and stimulate discussion. For traditional participants, this initiative provides new insights, and for the diverse participants, it is a learning opportunity that exposes them to management information and business decisions. In 2022, the program was implemented in 13 key meetings and it is gradually being expanded within the Group.

#### Diverse Meeting Participants and Management Exchange Opinions

"Shuffle Meetings" are meetings designed to allow diverse employees across different jobs and departments to exchange opinions and engage in conversation to share objectives and ideas. The initiative began in 2020, and to date, over 500 members of the Group have participated. A diverse group of dedicated colleagues working on Group business in their respective workplaces meet and communicate online on a daily basis, with management also participating. These meetings are a forum for participants to gain fresh insight and network by expressing their own perspectives and acknowledging and considering those of others.

## Allowing All Group Employees to Leverage Their Potential

### Toward the Advancement of Female Employees

In FY2022, the ratio of female managers in the Kewpie Group was 10%, and the ratio of female managers in Kewpie alone was 12.5%. To ensure that female employees, who account for approximately half of the Group's workforce, can fully participate in the business, we promote the development of female career-track positions, the introduction of a career-track system that does not require relocation, and the conversion of regional positions to career-track positions. In addition to personnel and labor systems, we aim to become a company where motivated female employees can continue to work and find success by changing the company's management and culture.

Important Human Resources Development Indices	FY2022 Results	FY2024 Target	FY2030 Target
Ratio of female managers (Kewpie only)	12.5%	18%	30%

### Study Sessions for the Group's Female Managers

Female managers from the Kewpie Group host and gather for regular study sessions, which include lectures from executive managers and outside experts and opportunities to gain the required knowledge for management positions. The aim is for female managers to explore how to take steps toward their career goals, find a management method unique to them, and act on it. Discussions among members have also created networks of female managers.

### Approach Toward the Employment of Persons with Disabilities

As it does for all its employees, the Kewpie Group aims to create an environment in which those with disabilities can demonstrate their potential and experience the joy of work and purpose. In support of this aim, the employment of persons with disabilities is not undertaken at the Group level. Instead, each Group company, including Kewpie Corporation and Kewpie Ai Co., Ltd. (a special subsidiary), employs people with disabilities in their respective regions, thereby creating diverse employment opportunities in a broad range of communities.

Trends in the Ratio of Employment for Persons with Disabilities (percentage of total employees as of December 1, 2022)

2018	2019	2020	2021	2022
3.54%	3.60%	3.67%	3.76%	3.73%

### Initiatives at Group Companies

The special subsidiary Kewpie Ai Co., Ltd. handles a wide range of operations, including in-house logistics, cleaning, and the production and distribution of marketing materials. Persons with disabilities make up 3.33% of employees (Kewpie Corporation + Kewpie Ai, as of December 1, 2022).

Besides supporting the hiring and retention of persons with disabilities, we are also proactive in seeking to create better communities and society. Some concrete examples include accepting internships for the employment of people with disabilities, providing speakers for universal design classes at elementary schools, interacting with special needs classes, and offering company tours.

As for Group companies, Kewpie Egg Corporation proactively hires people with disabilities at 22 plants nationwide, and they account for 5.69% of its workforce.

## Initiatives for Human Resources Development

### Approach to Human Resources Development

The Kewpie Group cares deeply about the careers of each of its employees. In addition to specialized training and self-development programs to achieve diversity, we provide the following career support systems.

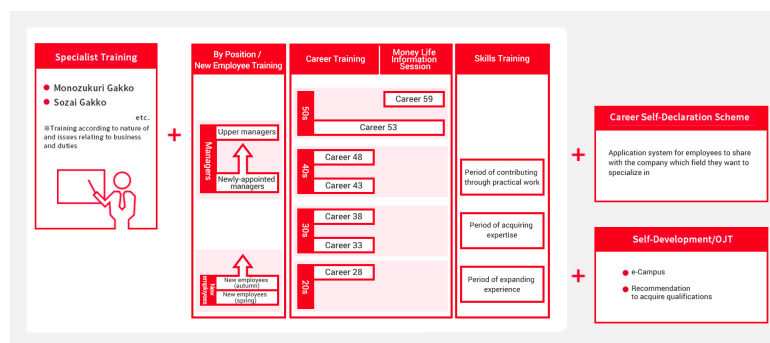

1. Growth Milestone Program
2. Career Self-Declaration Scheme
3. In-House Recruiting System

We encourage employees to identify each of their aspirations and paths to growth so that they can seek learning opportunities to that end and gain necessary experience, such as through interactions with other personnel.

Specifically, we offer the "Growth Milestone Program" and "Career Training" as well as the "Career Self-Declaration Scheme," which allows employees to independently apply for a transfer to their desired positions.

Furthermore, we established the "Kewpie Startup Program," which calls for applications from employees across the Group who are eager for challenges. We ask them to submit ideas for new businesses or certain concepts they wish to strengthen and select applications with strong aspirations.

These career-supporting initiatives aim to bring out the greatest potential in each employee and turn their aspirations into reality. With these initiatives, we strive to not only place the right people in the right positions, but also nurture a corporate culture that encourages challenge and create a workplace in which our diverse personnel can flourish.

Kewpie Career Assistance Framework

### Award Schemes

As a way to support our employees' active challenges and learning, and to encourage them to voice suggestions for the sake of the company's future, the Kewpie Group has established a variety of award schemes, including the President's Award.

#### President's Award

An award recognizing employees who have produced outstanding results or contributed to society by leveraging the Group's technologies or by demonstrating ingenuity. The President's Award aims to create a corporate culture unique to the Kewpie Group.

#### Invention Award

An award recognizing employees who have acquired patents that greatly contribute to the company or lead to making social contributions.

#### Kewpie Research Paper Award

An award recognizing employees who have written papers that make suggestions for the company's future, based on the changes happening in the world or issues that employees face in their day-to-day lives.

This long-standing award, which has continued for over 50 years, also hopes to encourage self-improvement in employees as they write the papers.

#### Qualifications Award

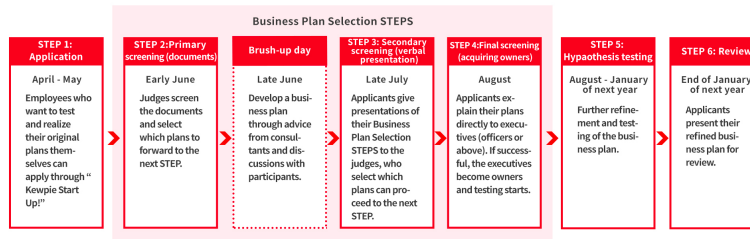

The Qualifications Award was established to support the career of each and every employee and create a corporate culture that encourages independent learning. In addition to supporting the employees' further studies, the program also notifies applicants of which qualifications the company is particularly looking for, so that both employees and the company can grow hand in hand.

## Initiatives for New Challenges

The Kewpie Group is actively engaged in initiatives that look to new challenges by promoting wide-ranging research and development of mayonnaise, dressings, eggs and vegetables, while also pursuing systems for the creation of innovations. While also taking advantage of outside help, we use Group cooperation to create new values and respond to the expectations of our stakeholders.

### Kewpie Startup Program

We have established the Kewpie Start Up Program with the aims of realizing individual employees' ideas and creating new businesses. Participants in the program have the opportunity to form networks of mentors that transcend divisions, which will help them upgrade their skills and advance their careers.

### Ideas from the Kewpie Start Up Program

Business Model	Description
"YOITOKI" supplement containing acetic acid bacteria enzyme	Our first product from the Kewpie startup program. This supplement contains acetic acid bacteria enzymes, the world's first to be mass-produced using Kewpie Group's original brewing technology.
Food with Function Claims "Diare"	Supplement containing acetic acid bacteria GK-1 and GABA. The acetic acid bacteria GK-1 reportedly reduces nasal discomfort caused by pollen and dust. Diare is the first product approved in Japan to carry a label indicating it is a food for specified health uses (FOSHU) to relieve nasal discomfort caused by pollen.
GABA Potato Salad	The Karada Omoi Menu (body-friendly menu) delicatessen series is the first in the delicatessen products industry to get the classification of food for specified health uses. It contains GABA, which has been reported to have a function of reducing blood pressure and is labeled "for individuals with high blood pressure." This salad is not only for individuals concerned about high blood pressure, but also for health-conscious consumers.
Fukaya Terrace Vegetable Friends' Farm	We have opened an integrated facility in Fukaya City, Saitama Prefecture, based on the concept of "a farm that inspires people to love and grow vegetables, and puts smiles on faces."

Products born from the Kewpie Startup Program

Conceptual image of Fukaya Terrace Vegetable Friends' Farm

## Flexible Work Style Initiatives

### Work Style Approach

The Kewpie Group actively supports individual growth and success by offering flexible work styles that allow employees to continue working through various life stages and by preparing environments in which they can reach their fullest potential.

## Flexible Work Style Initiatives

The working environment at Kewpie allows employees to pursue productivity while selecting flexible work styles that best fit their individual roles and the characteristics of their jobs. As such, we offer flexible working hours (flexitime) with no core working hours, and employees can choose to work from home or a satellite office so that they are not confined to a particular place or time. Employees working shorter hours can also use the flexitime system to balance work and child-rearing.

## Birth and Parenting Assistance Initiatives

We use the child-rearing support website to regularly provide company information to employees on childcare leave. Furthermore, before ending their leave, employees meet with their superiors to discuss career aspirations and how they want to work after returning to work. Superiors also take this time to share their hopes and expectations for the employee's continued role in the company.

We support that superiors can come through for those returning from childcare leave by using online learning materials to review relevant management knowledge, such as the company's various systems and about unconscious bias.

We encourage male employees to take parental leave in order to broaden their perspectives through childcare experiences and to grow personally. We have a system in place that allows them to choose how to do so based on their own circumstances.

Parental leave guide

Child-rearing support website

## Baby Food Classes for Working Dads

In 2022, we held the Baby Food Classes for Dads aimed at Group employees working in Senkawa, Shibuya.

With a choice between courses for fathers of younger and older infants, participants had an opportunity to acquire basic knowledge about baby food, practice making and tasting it, and interact with other participants.

Feedback from participants indicated that they felt they had received a lot of information they could take home and use, and the courses helped encourage fathers to participate in childcare.

## Parental Leave Taken

### Female Employees

- Number of employees who have taken childcare leave this year  
(Survey subjects: Kewpie Corporation only)

### Male Employees

- Number of leave takers: the number of employees who took leave before their children turned two
- Ratio of leave takers: the ratio of employees who took leave the year their children were born  
(Survey subjects: Kewpie Corporation only)

Initiatives for Health-based Management ●      Initiatives for Occupational Health and Safety ●

### Initiatives for Health-based Management

#### The Kewpie Group Health Statement

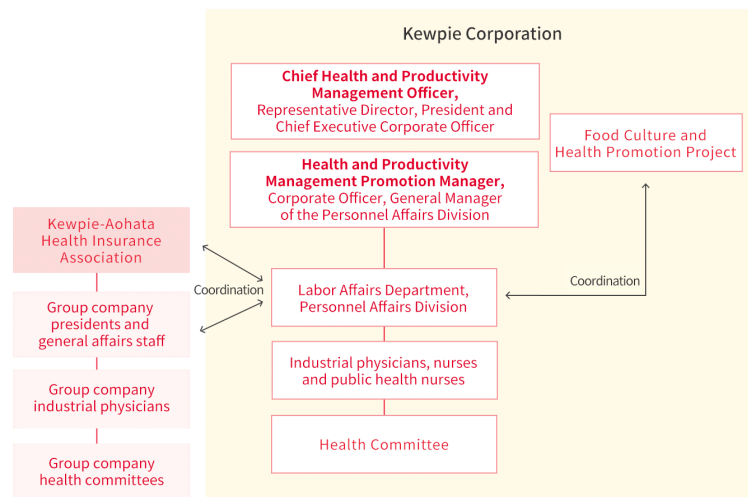

The Kewpie Group aims to be of benefit to society by supporting the health of the public through salads and eggs. We believe that the development of our business and contribution to society will be achieved when all Kewpie Group employees enthusiastically engage in corporate activities. We will continue to contribute to the public's health through food and support our employees' and their families' health.

> Outside Evaluation

1. Improving People's Health Through Salads and Eggs  
We will put forward dietary lifestyles that are tasty, enjoyable, and conducive to maintaining good health, by using the technologies we have attained through popularizing the food culture to eat vegetables as salads, and the promotion of highly nutritious egg menus.
2. Improving the Health of Employees and Their Families Through Self-care  
In addition to supporting employees and their families in efforts to improve their own health, we will endeavor to raise awareness of health issues.

#### Health Management Promotion System

#### Priority Health Measures

##### Improvement of Lifestyle Habits

We aim to improve lifestyle habits such as diet and exercise, which are causes of lifestyle-related diseases.

### Improvement of Cancer Screening Rates

Given the importance of the early detection and diagnosis of cancer, we promote cancer screening to improve the uptake rate in the company's health check.

### Mental Health Measures

We work on mental health measures to create a workplace environment where employees can maintain their mental health and work enthusiastically.

### Group-Wide Health Index "Comprehensive Mental and Physical Indicators"

By visualizing the physical and mental health status of employees through unique common indicators and accumulating data on a per-company basis, we promote efforts to change mindsets about health. Regarding mental health indicator (Presenteeism) and health age, we notify individuals and provide feedback to supervisors on the health status of the organization.

This leads to both individuals and the organization moving in the same direction to make improvements in terms of lifestyle, workstyles, and the workplace environment.

### Mental Health Indicator (Presenteeism)

The results of stress checks are divided into four levels (good, caution, high stress, and super red) and multiplied by the ratio of the number of people in each level to obtain an overall score (Kewpie Group's original presenteeism index: 100 when all employees are in good condition).

### Kenko Nenrei (Health Age)

This indicates the difference between an individual's health age, as calculated from the results of health checkups, and their actual age. (Kenko Nenrei is a registered trademark of JMDC Corporation.)

## Initiatives for Health Management

### My Health Goals

Under the theme of "my health," the Kewpie Group undertakes activities to support good health for employees throughout the year. Personal goals were previously being posted in workplaces, but starting in FY2023 they are being posted on the company intranet to reduce environmental impacts (the use of paper and display magnets), although goals are still being posted on-site in some plants and workplaces that have no intranet access.

### Mental and Physical Health Interviews

"Health Interviews" have been conducted since FY2022. The senior management of Kewpie and Group companies issue health declarations, and in response, general affairs and labor relations employees have opportunities to listen to employees' concerns about their mental and physical health and provide support in cooperation with professionals depending on the situation. The Kewpie Group is committed to improving the health of all employees through dialogue.

### Health Improvement Campaign

The Kewpie Aohata Health Insurance Association runs the "Health Up Campaign" once a year to call for lifestyle improvements and to provide an opportunity for employees to review their lifestyle habits. The participation rate fell below 60% at one point during the COVID-19 pandemic, but reached a record high of 69% in FY2022. This campaign is a large event attended by about two-thirds of Group employees.

### Health-Conscious Meal Proposals

We hold themed fairs and events, and implement initiatives to improve employees' dietary habits. The Salad First event for Vegetable Day (August 31) encourages people to start with salad before eating carbohydrates such as rice. Doing so moderately suppresses the rise in blood sugar levels after meals. The "salad first" message is to start the meal by eating vegetables.

The Salad First event

## Measures Against Smoking

To maintain and improve the health of Group employees, on April 1, 2020, we removed the on-site smoking areas at our two offices in Tokyo (Shibuya-ku and Chofu-city), making the entire site smoke-free. At the same time, we are working on creating work environments that are free of passive smoking at all of our offices, including those of our Group companies.

Since 2017 we have also been strengthening our support for employees who wish to give up smoking, and we are encouraging them to take up the challenge. For example, we subsidize co-pays for smoking cessation clinics and smoking cessation medication, and we are providing commemorative gifts to those who succeed in giving up smoking by themselves.

## Cancer Screening Leave and Workplace Cancer Screening

In addition to regular health checkups for all employees, the Kewpie Group offers medical examinations and Kewpie Group's set of three examinations (gastric cancer screening, colorectal cancer screening, and abdominal ultrasound examination) to employees aged 35 and above, and gynecological examinations (breast cancer screening and uterine cancer screening) to female employees aged 20 and above. These medical checkups are subsidized by the Kewpie Aohata Health Insurance Association. To make it easier for employees to take medical examinations, we are implementing a variety of initiatives aimed at raising to 80% the ratio of Kewpie Group employees having health checkups, such as by offering leave for medical screening and scheduling cancer screenings by mobile vehicles for groups of employees at a workplace.

From 2019: Gynecological cancer screening in the Tokyo metropolitan area

From 2021: Implementation of set of three medical examinations in the Tokyo metropolitan area

Start granting leave for medical examinations

Group cancer screenings in workplaces

From 2022: Expand to new areas sequentially

## Group Analysis Using Stress Check Sheets

The Kewpie Group prepares stress check sheets (based on the results of stress checks) for analysis for the purpose of workplace improvement.

We strive to improve our workplaces to make them more comfortable for employees by comparing them with other offices and companies in the same industry and by identifying risk factors in each organization.

Image of stress check sheet

## Health Management of Employees Stationed Overseas

As our international businesses expand, the number of employees stationed overseas is also increasing year by year.

To maintain the same standard of health management as employees stationed in Japan, those stationed overseas also receive a comprehensive medical check-up once a year and, if necessary, receive advice from nurses. Furthermore, we also provide mental health support by conducting interviews and stress checks three months into the employee's work overseas.

## Initiatives for Occupational Health and Safety

### Approach to Occupational Health and Safety

At the Kewpie Group's production plants, safety officers, who report directly to the General Manager of the Kewpie Production Division, play a central role in our endeavors to create comfortable workplace environments, in which employees can spend a safe and healthy working life. We strive to prevent accidents and raise safety awareness mainly through the following actions.

1. Safety audits of all production plants (73 in Japan)
2. Group Safety Meeting
3. Sharing of accident information horizontally across the Group

### Group-Wide Preventive Safety Initiatives

The Kewpie Group has pursued preventive safety activities since 2004. Through the following three actions, we aim to lower risks to an acceptable level and to build a culture of Safety First.

1. Risk assessments
2. Education based on the Safety Education Manual
3. QBSS (Kewpie Blue-flag Safety Standards) inspections and rectification

### Trends in Occurrence of Lost-time Workplace Accidents (tallied at end of April each year)

	FY2018	FY2019	FY2020	FY2021	FY2022
Lost-time accidents	24	13	12	17	9
Frequency rate*1	0.99	0.62	0.60	0.90	0.46
Severity rate*2	0.034	0.038	0.020	0.031	0.027

Kewpie Group Japanese plants

\*1 Frequency rate = Number of deaths and injuries from workplace accidents / total number of actual hours worked x 1,000,000

\*2 Severity rate = Number of work days lost / total number of actual hours worked x 1,000

## Governance

In order to help improve the dietary habits and health of people around the world and achieve sustainable growth and increased corporate value based on our Group philosophy, the Kewpie Group has made the following our most important business directives: establishing business structure, mechanisms, and system, and implementing measures as needed; and appropriately distributing the results of our business to customers, employees, business partners, shareholders, investors, regional communities, and other stakeholders.

Corporate governance is defined as a system for transparent, fair, prompt, and decisive decision-making, and to achieve this we will continue to comply with The Kewpie Group Policies as well as work on the development and enhancement of appropriate and effective governance systems according to our fundamental policy.

**↳ Code of Ethics**

The Kewpie Group Code of Ethics, grounded in our Corporate Philosophy, is the foundation on which we build trust among all our stakeholders.

**↳ Corporate Governance**

Our system for ensuring transparency, fairness, speed, and decisive action in the decision-making process.

**↳ Risk Management**

We will commit to reducing losses to business due to risk and improving the feasibility of our medium to long-term goals.

## Code of Ethics

- Initiatives Rooted in the Code of Ethics
- Respect for the Law
- Respect for Human Rights
- Fair and Sustainable Corporate Activities
- Commitment to Information Security
- Rejection of Antisocial Forces

### Initiatives Rooted in the Code of Ethics

Guided by the corporate philosophy that draws on its Corporate Motto and Principles, Kewpie has put in place the Group Policies that embody the Group's commitment to earning the highest degree of trust from its stakeholders, including customers, shareholders, business partners, employees, and society, who provide the underlying strength for all of its business activities.

As part of this, we have established ethical guidelines to follow in order to be an even better corporate citizen.

It is crucial that each and every employee, starting with our directors, understands the core of the Group Policies and faithfully adheres to them, leading to greater transparency and trust as a company.

- > [Corporate Philosophy](#)
- > [The Kewpie Promise](#)

### Respect for the Law

For a company to survive and grow over the long term, each member of its workforce, from top executives down to rank-and-file employees, must not merely comply with the relevant laws and regulations but also conduct their business in accordance with high ethical standards. Inasmuch as our employees are key to the sustainable management of our business, it is also important to disseminate, inside and outside the Group, the basic principles governing their conduct and to link these with customer confidence as well as internal self-purification mechanisms. With these concepts in mind, we have developed a Group compliance management system and are taking concrete steps to ensure compliance among all employees of the Kewpie Group.

- > [Corporate Governance](#)
- > [Regarding the Kewpie Group Anti-Bribery Basic Policy](#)

### Promoting Compliance

In January 2004, we established the "Ethics and Conduct" as well as the Compliance Committee and a company-wide compliance system. This committee establishes compliance-related rules, identifies issues, and implements activities such as the Mind-Up Programs for employees.

#### • Awareness Survey for Employees

An awareness survey is conducted on all employees every other year to check awareness on compliance and listen to any opinions they may have as we strive to create a highly transparent and comfortable workplace.

#### • Helpline

We have set up a helpline as an internal reporting system, which serves as our Whistleblower Protection Act.

Reports and consultations received by external attorneys, third-party organizations, auditors, and more are investigated by the Compliance Committee, who then deal with violations, publicize them throughout the company, and implement measures to prevent recurrence.

## Respect for Human Rights

---

We are striving to create a work environment without discrimination or harassment, where each and every director and employee respects human rights. The employee awareness survey has enabled us to work on investigating whether any violations of human rights have transpired. We will strive even harder in our commitment toward human rights throughout the entire value chain, as we are expected to understand the various human rights issues that emerge in developing business and act appropriately.

[> Initiatives for Respect for Human Rights](#)

 [Kewpie Group Human Rights Policy \(118KB\)](#)

## Fair and Sustainable Corporate Activities

---

To earn the trust of all our stakeholders, we comply with all laws associated with our corporate activities and act with good sense. We also engage in fair, free competition and work to build transparent and healthy relationships. We are dedicated to the "Quality First" principle, the same concept used in procuring raw materials, and are working to ensure that the environment and human rights within the supply chain are taken to account.

[> The Fundamental Policy for Sustainable Procurement](#)

[> Sustainable Procurement](#)

### Creating a System for Compliance with the Competition Law (Antimonopoly Act / Subcontract Act)

The Kewpie Group complies with the Competition Law (Antimonopoly Act / Subcontract Act) as an initiative to practice fair and sound corporate activities.

#### Correspondence to the Antimonopoly Act

- Publication of an Antimonopoly Act Compliance Manual and Case Studies and Q&A
- Education and training on the Antimonopoly Act through e-learning and in-house seminars
- Implementation of in-house training by lawyers at major overseas group companies

#### Correspondence to the Subcontract Act

- Construction and operation of an ordering / payment system that complies with the Subcontract Act
- Regular implementation of education and training on the Subcontract Act through e-learning and in-house study sessions
- Preparation of "manual for the Subcontract Act", various formats of necessary documents such as purchase orders, and self-checklist of the Subcontract Act
- Appointment of the Subcontract Act personnel in related departments, promotion of self-checks and voluntary improvement activities

## Commitment to Information Security

---

The Kewpie Group has drawn up management manuals including regulations on the handling of corporate information and basic regulations for the protection of personal information. Under the direction of the Information Security Committee, we provide training for personnel involved in information management, conduct compliance and performance audits, and periodically review and update the regulations. We also work with our overseas offices to ensure that they have systems tailored to their countries' restrictions and IT environment and that their employees know and follow those procedures.

[> Privacy Policy](#)

[> Corporate Governance](#)

## Rejection of Antisocial Forces

---

As a responsible member of Japanese society, the Kewpie Group abjures all ties with antisocial forces that threaten the order and safety of our society and pledges to deal resolutely with improper demands from such entities. We are working to educate Group personnel about these policies while sharing relevant information and concerns with police and other authorities. In addition, we have inserted a clause on the exclusion of antisocial forces in all our domestic business contracts.

**Basic Policy on Antisocial Forces**

As a responsible member of Japanese society, the Kewpie Group abjures all ties with antisocial forces that threaten the order and safety of our society and pledges to deal resolutely with improper demands from such entities. We have drawn up rules and procedures for dealing with antisocial forces and are conducting training at each level and e-learning to ensure employee compliance. We will make every effort to share relevant information and concerns with police and other authorities as needed.

**Clause on the Exclusion of Antisocial Forces**

The Kewpie Group includes a clause on the exclusion of antisocial forces in all its contracts with business partners. The clause provides for immediate termination of the contract in the event that the business partner is found to be an antisocial force or to have connections with antisocial forces.

Corporate Governance

- Basic Concepts of Corporate Governance ●
- Corporate Governance System ●

Basic Concepts of Corporate Governance

The Kewpie Group regards corporate governance as key management infrastructure for achieving sustainable growth of the Group and enhancing corporate value while realizing the Group's Ideal of "Contributing to the food culture and health of the world".

We work continuously to develop and enhance corporate governance system that leverages the unique qualities of the Group while valuing dialogue with various stakeholders.

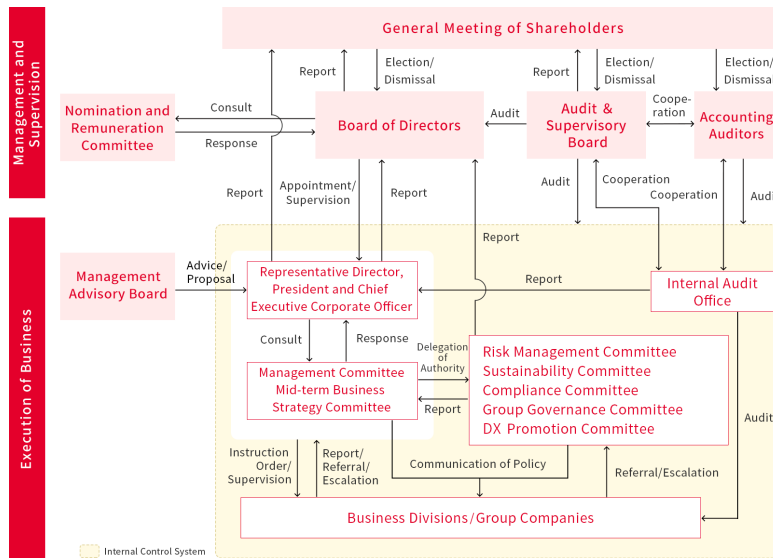

\* We defines corporate governance as the systems used to secure transparent, fair, swift and resolute decision making to achieve sustainable growth and enhanced corporate value, taking into account the viewpoints of customers, shareholders and other stakeholders.

Corporate Governance System

The Company is a company with an Audit & Supervisory Board. The audit function of the Board of Directors of the Company is being strengthened under this governance scheme.

A corporate officer system is adopted for appropriate and flexible execution of business.

The Company sets the terms of directors and corporate officers at one year in order to clarify management responsibilities each fiscal year and establish a management structure that can respond swiftly to changes in the business environment.

Management and Supervision

Board of Directors

The Board of Directors consists of seven standing directors and three outside directors, composed mainly of corporate officers who can take a broad view of the overall Group

The Board of Directors makes decisions on important management matters, including the Group's policies and strategies (Medium-term Business Plan, etc.), and supervises the execution of duties by directors and corporate officers.

## Audit & Supervisory Board

The Audit & Supervisory Board consists of two standing corporate auditors and three outside corporate auditors.

Through exchanging opinions with the Representative Director, President and Chief Executive Corporate Officer, participating in important meetings and committees, reports from officers in charge and responsible personnel of each division, and on-site inspections, etc., the Audit & Supervisory Board monitors how the Company's internal control system is maintained and operated.

In addition, the Board collaborates with Accounting Auditors and the Internal Audit Office, including regularly sharing information with them.

\* All six outside directors and outside corporate auditors are independent officers as provided for by Tokyo Stock Exchange, Inc.

\* For details, please see the list of officers.

[> List of Officers](#)

## Nomination and Remuneration Committee

The Company has established the Nomination and Remuneration Committee as an advisory body to the Board of Directors with the aim of enhancing objectivity, reasonableness, and transparency of the structure of the Board of Directors, the nomination of Director, and compensation of directors and other officers.

The committee is to consist of no fewer than five members, and at least half of its membership is to be comprised of outside directors and outside corporate auditors (the "outside officers") who meet the independence criteria.

The chairman of the committee shall be appointed by the resolution of the Nomination and Remuneration Committee from among its members who are outside directors, and such person shall undertake chairmanship of the committee.

Composition (As of February 24, 2023)

Chairman	Hitoshi Kashiwaki, Outside Director
Members	Shihoko Urushi, Outside Director
	Atsuko Fukushima, Outside Director
	Kazumine Terawaki, Outside Corporate Auditor
	Amane Nakashima, Chairman
	Mitsuru Takamiya, Representative Director, President and Chief Executive Corporate Officer
	Shinichiro Yamamoto, Director and Senior Corporate Officer

## Execution of Business

### Important Meetings and Committees

The Group's overall policy and most important matters are decided after deliberation by the Company's Board of Directors or the Management Council (or the Medium-Term Business Plan Promotion Council). For important and specialized issues across the Group, specified important meetings and committees to which authority has been delegated by the Management Council are responsible for formulating policies and promoting initiatives, leading to swift and appropriate decision-making and implementation. In particular, functions related to internal control are mainly shared by the following important meetings and committees.

Meeting	Organizer/Chairman	Main roles
Management Committee	Representative Director, President and Chief Executive Corporate Officer	This is an important meeting that deliberates and monitors important matters (including business risks) related to Group management. Inside directors and corporate officers are the main participating members.
Mid-term Business Strategy Committee	Representative Director, President and Chief Executive Corporate Officer	This is an important meeting where members, mainly executive directors, deliberate on important matters especially relevant to the promotion of the Medium-term Business Plan, among other matters listed above.
Risk Management Committee	Director in charge of risk management	This is an important committee whose main role is to formulate policies, determine priority issues, and promote initiatives for risk management of the entire Group. It consolidates information on company-wide risks and oversees the evaluation, prioritization, and countermeasures of such risks.

Meeting	Organizer/Chairman	Main roles
Sustainability Committee	Director in charge of sustainability	This is an important committee whose main role is to formulate policies, determine priority issues, and promote initiatives for achieving sustainability in accordance with the Group Policies. It formulates Basic Policy on Sustainability and works on priority social and environmental issues based on this policy.
Compliance Committee	Director in charge of compliance	This is an important committee whose main role is to establish a compliance system for the entire Group, determine priority issues, and promote compliance initiatives. In addition to identifying any issues related to compliance, it formulates plans, raises awareness, conducts training, etc. related to promoting compliance.
Group Governance Committee	Director in charge of group governance	This is an important committee whose main role is to formulate policies, determine priority issues, and promote initiatives for the establishment of appropriate Group governance. It promotes measures such as appropriate decision-making and the development of group company management systems.
DX Promotion Committee	Corporate officer in charge of IT Business Reform Promotion	This is an important committee whose main role is to develop a policy of digital strategy for the entire Group, optimize resource allocation (cost, systems, etc.), and develop and promote a policy of DX human resources development. Through the Information Promotion Committee, an organization under its direct control, it maintains information security for the entire Group, improves the IT environment, and promotes IT literacy education and IT utilization.

#### Management Advisory Board

The Management Advisory Board has been set up as an advisory body to the Company's Representative Director, President and Chief Executive Corporate Officer. Participants in the Management Advisory Board meetings consist of outside members made up of outside experts, observing committee members (outside officers) and the Representative Director, President and Chief Executive Corporate Officer. Other directors may also participate as necessary, depending on the agenda.

The Company receives advice and proposals from this Board for the maintenance and improvement of the sound, fair and transparent management of the Group, which it takes into account in decision-making.

The Management Advisory Board meets regularly twice per year, with additional special meetings held as necessary.

#### Internal Audit Office

The Internal Audit Office does, from a perspective of legality and rationality, coordinate with staff members in each division or department in charge of auditing duties relating to product quality, environmental protection, safety, and labor to conduct internal audits of the Group's management and operation systems for overall management activities and the execution status of duties.

In addition, it implements the evaluation of the effectiveness of internal control over financial reporting in accordance with the nomination by the Company's Representative Director, President and Chief Executive Corporate Officer.

## Risk Management

- Priority Risk Assessment and Selection
- Risk Management System
- Main Risk Management Activities

### Priority Risk Assessment and Selection

We assess potential risks due to changes in the internal or external management environment along two axes, "degree of impact on management" and "degree of management control," and select the risks to be addressed on that basis. We monitor risks from both internal and external aspects, assess the severity of risks in response to changing conditions in a timely fashion, and strive to face risks in an agile manner.

#### Main Company-wide Risks

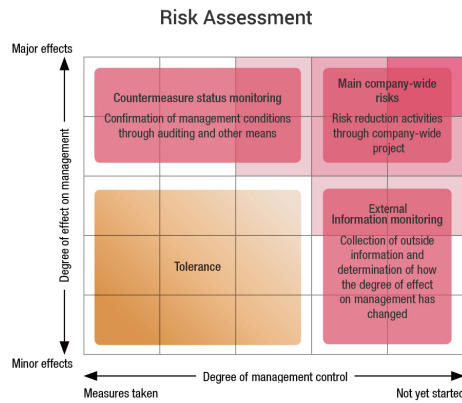

We endeavor to mitigate risks over which management control is insufficient despite having a significant effect on management through companywide projects implemented on a priority basis.

#### Countermeasure Status Monitoring

When the impact on management remains high despite countermeasures having an effect and the degree of management control increasing through our activities, we confirm the status of subsequent countermeasures through audits and other means.

#### External Information Monitoring

Even for risks that have a small impact on management at the present time and are not considered to be management issues, for risks that are not subject to countermeasures we collect external information with high sensitivity, and endeavor to monitor the situation.

### Risk Management System

The Kewpie Group recognizes events with the potential to affect the continued and stable development of management as risks, and strives to enhance internal controls through the practice of risk management.

Each department in charge continuously monitors individual risks, while the Risk Management Committee shares information related to risk factors that affect the Company as a whole to comprehensively manage the evaluation and prioritization of such risks, and formulate countermeasures. Specifically, we have positioned the following nine items as major risks and are working to manage and avoid them.

## Risk Management Structure and Company-wide Risks

The Director in charge of risk management regularly reports Company-wide risk assessments and the status of response policies to the Board of Directors.

\* The Risk Management Committee comprises members of the Kewpie Corporation Management Committee and the representatives of major divisions and subsidiaries. The committee is the Kewpie Group's highest decision-making body related to risk management, and meets three times a year.

\* Matters related to global environmental issues and climate change are handled by the Sustainability Committee.

## Main Risk Management Activities

### Risk Reduction for Overseas Development: "Internal Control Promotion Project" at Overseas Group Companies

The Kewpie Group is engaged in growing and developing the Group by creating a safe and comfortable work environment for employees at overseas offices.

To form the core of these activities, we have created the Internal Control Promotion Project, consisting of the Legal, Finance, Human Resources, IT, Intellectual Property, Risk Management, Internal Audit, Overseas Business, and other departments. This Project promotes the development of an internal control system (governance, compliance, and risk management) that strengthens our management foundation and addresses various initiatives.

The Internal Control Promotion Project promotes the development of an internal control system by creating checklists for overseas risk management for each participating specialized department and communicating with each overseas company.

Online meeting of the Internal Control Promotion Project

#### Initiatives

- Develop an anti-bribery program
- Establish a unified Business Continuity Plan (BCP) for use both domestically and internationally in the event of a crisis
- Promote information security measures
- Strengthen human resources and the labor management system (development and review of regulations and systems, training on philosophy, etc.)
- Training for members of overseas Group companies

We will continue to share the milestones and schedules of Project efforts with overseas Group companies and work together to further improve our overseas internal control systems.

## Handling Measures for Unpredictable Situations Such as Natural Disasters Business Continuity Plan (BCP)

---

Drawing on past experience with disaster, pandemics, and other crises, we have created a business continuity plan and measures across the Kewpie Group to be used in the event of a crisis. Here are some of the main components:

- Maintain systems to enable a transfer of Tokyo head office functions over to the Kansai region
- Establish an emergency communication networks and stockpile emergency supplies
- Conduct seismic upgrades of production and logistics facilities
- Develop systems to verify the condition of production equipment
- Design redundancy into production bases for major products, raw materials procurement, and order processing functions
- Maintain a nationwide system that can have employees transition to working from home

The task force meeting

We have prepared manuals for each type of crisis and conduct large-scale disaster response exercises (for initial responses, supply chains, and safety checks) to ensure proper execution of the content of manuals.

Through these activities, we take appropriate initial responses in the event of a disaster, transition quickly to recovery activities, encourage the restoration of normal business activities, and prepare to minimize damage from unforeseen circumstances.

## Responding to Ransomware\* Risk

---

Ransomware attacks on companies in Japan and overseas have been on the rise, so the Kewpie Group is raising awareness of the risk and implementing countermeasures.

We have been developing a work environment that will be resilient and responsive to an attack. In terms of enhanced infrastructure, we have added anti-malware measures to all PCs and servers. In terms of human resources, we run internal training programs for all employees and conduct attack email simulations regularly to raise awareness of cybersecurity.

\* A malicious program that infects a device, encrypts the data saved on it to render it unusable, and then threatens to disclose the data unless a ransom for its decryption is paid.

### Kewpie Group Integrated Report 2023

In putting together the Integrated Report 2023, the Kewpie Group hopes to deepen the understanding of all stakeholders, including its shareholders and investors, regarding efforts to create value over the medium- to long-term. The Integrated Report 2023 therefore provides an overview of the Group's business as well as comprehensive strategies and plans aimed at creating corporate value.

Standard Table

GRI Standards Content Index	<b>SASB Reference Table</b>
-----------------------------	-----------------------------

**SASB Reference Table**

The Sustainability Accounting Standards Board (SASB) is an independent standard-setting organization that facilitates the disclosure of critical sustainability information to meet investor needs. The table below indicates the relevant Kewpie webpages corresponding to processed food industry standards as defined in the SASB's Sustainable Industry Classification System (SICS).

Title	SASB Code	Topic	Location	Notes
Energy Management	FB-PF-130a.1	(1) Total energy consumed, (2) percentage grid electricity, (3) percentage renewable	<a href="#">&gt; Environmental Management</a> <a href="#">&gt; Deal with Climate Change</a> <a href="#">&gt; ESG Data Sheet</a>	
Water Management	FB-PF-140a.1	(1) Total water withdrawn, (2) total water consumed, percentage of each in regions with High or Extremely High Baseline Water Stress	<a href="#">&gt; Environmental Management</a> <a href="#">&gt; Sustainable Use of Water Resources</a> <a href="#">&gt; ESG Data Sheet</a>	
	FB-PF-140a.2	Number of incidents of non-compliance associated with water quantity and/or quality permits, standards, and regulations	No violation in FY2022	
	FB-PF-140a.3	Description of water management risks and discussion of strategies and practices to mitigate those risks	<a href="#">&gt; Sustainable Use of Water Resources</a> <a href="#">FY2022 TCFD Report</a>	
Food Safety	FB-PF-250a.1	Global Food Safety Initiative (GFSI) audit (1) non-conformance rate and (2) associated corrective action rate for (a) major and (b) minor non-conformances	<a href="#">&gt; A Passion for Quality</a>	
	FB-PF-250a.2	Percentage of ingredients sourced from Tier 1 supplier facilities certified to a Global Food Safety Initiative (GFSI) recognized food safety certification program	Not disclosed	
	FB-PF-250a.3	(1) Total number of notices of food	No violation in FY2022	

		safety violation received, (2) percentage corrected		
	FB-PF-250a.4	(1) Number of recalls issued and (2) total amount of food product recalled	> Risk Management	
Health & Nutrition	FB-PF-260a.1	Revenue from products labeled and/or marketed to promote health and nutrition attributes	> Contributing to Food Culture and Health	
	FB-PF-260a.2	Discussion of the process to identify and manage products and ingredients related to nutritional and health concerns among consumers	> Contributing to Food Culture and Health > Quality & Safety	
Product Labeling & Marketing	FB-PF-270a.1	Percentage of advertising impressions (1) made on children and (2) made on children promoting products that meet dietary guidelines	Not disclosed	
	FB-PF-270a.2	Revenue from products labeled as (1) containing genetically modified organisms (GMOs) and (2) non-GMO	Not disclosed	
	FB-PF-270a.3	Number of incidents of non-compliance with industry or regulatory labeling and/or marketing codes	No violation in FY2022	
	FB-PF-270a.4	Total amount of monetary losses as a result of legal proceedings associated with labeling and/or marketing practices	Not disclosed	
Packaging Lifecycle Management	FB-PF-410a.1	(1) Total weight of packaging, (2) percentage made from recycled and/or renewable materials, and (3) percentage that is recyclable, reusable, and/or compostable	> Reduction and Reuse of Plastic Emissions	
	FB-PF-410a.2	Discussion of strategies to reduce the environmental impact of packaging throughout its lifecycle	> Environmental Management > Reduction and Reuse of Plastic Emissions	
Environmental & Social Impacts of Ingredient Supply Chain	FB-PF-430a.1	Percentage of food ingredients sourced that are certified to third-party environmental and/or social	> Promotion of Sustainable Procurement	

		standards, and percentages by standard		
	FB-PF-430a.2	Suppliers' social and environmental responsibility audit (1) non-conformance rate and (2) associated corrective action rate for (a) major and (b) minor non-conformances	Not disclosed	
Ingredient Sourcing	FB-PF-440a.1	Percentage of food ingredients sourced from regions with High or Extremely High Baseline Water Stress	<a href="#">FY2022 TCFD Report</a>	
	FB-PF-440a.2	List of priority food ingredients and discussion of sourcing risks due to environmental and social considerations	<a href="#">Promotion of Sustainable Procurement</a> <a href="#">FY2022 TCFD Report</a>	
Activity Metric	FB-PF-000.A	Weight of products sold	Not disclosed	
	FB-PF-000.B	Number of production facilities	<a href="#">Group Companies Integrated Report</a> > Corporate Information

## Kewpie Group ESGData

### Environment

Last updated : July 25, 2023

Scope 3 Calculation Methods		
Category	Calculation method	Target emission intensity, etc
1. Goods purchased and services	Standard quantity per weight	Raw material / material purchase weight
2. Capital goods	Intensity per investment cost	Amount of capital investment
3. Fuel and energy initiatives not included in Scope 1 & 2	CFP-DB, SC-DB	Usage by energy type
4. Transportation and delivery (upstream)	Ton-Kilo method / emission intensity during transportation	Shipper transportation / transportation scenario activities for each procurement item
5. Material waste produced from business activities	Standard quantity per weight	Weight of wasted material
6. Business trips	Consumption per no. of employees	No. of employees
7. Employee commuting	Consumption per no. of employees and working days	No. of employees and no. of business days
8. Lease assets (upstream)	Included in Scope 1 & 2	Included in Scope 1 & 2
9. Transportation and delivery (downstream)	Emission intensity during transport	The scenario is shipment weight and product transportation
10. Manufacturing products sold	Energy consumed indirectly by each product	Sales volume for each product family
11. Use of products sold	Energy consumed indirectly by each product	Sales volume for each product family
12. Disposal of products sold	Standard quantity per weight	Weight of packaging materials used for products
13. Lease assets (downstream)	Not applicable	Not applicable
14. Franchises	Not applicable	Not applicable
15. Investments	Not applicable	Not applicable

## Initiatives and Affiliations

Initiatives: Endorsements and Memberships ▼      Affiliations ▼

### Initiatives: Endorsements and Memberships

#### TCFD (Task Force on Climate-related Financial Disclosure)

The Kewpie Group has supported the Task Force on Climate-related Financial Disclosures (TCFD) since 2021, and also is a member of the TCFD Consortium.

The TCFD is a task force established by the Financial Stability Board (FSB) in 2015 at the request of the G20. The TCFD Consortium is a forum where companies and financial institutions that agree with these initiatives can collaborate.

- [> TCFD](#)
- [> TCFD Consortium](#)

#### RSPO (Roundtable on Sustainable Palm Oil)

The Kewpie Group has been a member of the Roundtable on Sustainable Palm Oil (RSPO) since 2018. RSPO is a non-profit organization founded in 2004 mainly by seven organizations, including WWF, with the aim of promoting the sustainable production and use of palm oil through the development of globally trusted certification standards and the participation of stakeholders.

- [> RSPO](#)

#### Water Project of the Ministry of the Environment of Japan

Kewpie has been joining the Water Project of Japan's Ministry of the Environment since 2022.

The Ministry of the Environment Water Project was launched in 2014 in accordance with the Basic Act on the Water Cycle, and is a public-private partnership project that promotes efforts aimed at maintaining or restoring a sound water cycle.

- [> Water Project of the Ministry of the Environment of Japan \(Japanese site only\)](#)

#### CLOMA (Clean Ocean Material Alliance)

Kewpie has been a member of the Clean Ocean Material Alliance (CLOMA) since 2020.

CLOMA is a platform established in January 2019 to help solve marine plastic pollution, a new challenge for the global environment. For that aim, the alliance develops and spreads innovative alternatives that will lead to the more sustainable use of plastic products and the reduction of plastic waste, and accelerates innovation by strengthening collaboration among a wide range of stakeholders across industries.

- [> CLOMA](#)

## SCAFFF2030 (Sustainability Consortium for Agriculture, Forestry, Fisheries and Food)

Since 2020, Kewpie has been participating in the Sustainability Consortium for Agriculture, Forestry, Fisheries and Food (SCAFFF2030) project (in Japanese, Afunowa 2030). This is a project launched by Japan's Ministry of Agriculture, Forestry and Fisheries with the aim of achieving the SDGs by 2030 and creating a future where not only the present but also future generations can live with the gift of abundance from nature.

[> SCAFFF2030 \(Japanese site only\) !\[\]\(666e09182d4cd268646ea700ea60dcdf\_img.jpg\)](#)

## JaSPON (Japan Sustainable Palm Oil Network)

The Kewpie Group has been a member of the Japan Sustainable Palm Oil Network (JaSPON) since 2019. JaSPON is a network established by retailers, consumer goods manufacturers and NGOs to accelerate the procurement and consumption of sustainable palm oil in the Japanese market, aiming to solve various social and environmental issues in palm oil production.

[> JaSPON !\[\]\(e3f8612927870f2e0f9f5989e6dd3064\_img.jpg\)](#)

## GPN (The Green Purchasing Network)

Kewpie Corporation has been a member of the Green Purchasing Network (GPN) since 1996. To promote the formation of markets for products and services with lower environmental impact and help establish a sustainable society and economy, GPN promotes green purchasing activities, raises awareness of green purchasing and provides related information, and conducts research.

[> GPN !\[\]\(cf531ed27e91483460120fcc057b3901\_img.jpg\)](#)

## HSFE (Strategic Initiative for a Healthy and Sustainable Food Environment)

Kewpie Corporation has been a member of the Strategic Initiative for a Healthy and Sustainable Food Environment since March 2021. Launched by Japan's Ministry of Health, Labour and Welfare, this initiative has been promoted through collaboration among industry, academia, and government, and aims to realize a vibrant and sustainable society, recognizing issues such as excessive salt intake, the idealization of thinness by young women, and nutritional disparities associated with economic disparities as serious social issues.

## History of Our Social and Environmental Activities

Covers Kewpie Corporation and the Kewpie Group  
The chronological table reflects business activities at the time

Year	Social Activities	Environmental Activities
2023 * As of the end of May 2023	Started Local Paysanne Salad campaigns in 47 prefectures across Japan	Released FY2022 TCFD Report
	Announced Green Kewpie, a new sustainable food brand	Kewpie Malaysia starts solar power generation
		Extended the shelf life of bottle type Italiante Basil Sauce
		Kewpie (Goka Plant, Nakagawara Plant, Izumisano Plant, Kobe Plant) and Kpack Co., Ltd. achieve biomass power generation from food waste
		Verde Toast Spread series reduces plastics use by approx. 10.9% by switching to containers with less environmental impact
	2022	Established Kewpie Group Basic Policy on Sustainability
Revised our Material Issues for Sustainability and Sustainability Targets		
Sustainability Pages created on official websites of four Kewpie Group companies (Salad Club, Kewpie Egg, Deria Foods, Kewpie Jyozo).		
Revised the Kewpie Group Basic Policy on Sustainability		
Added conservation of biodiversity to material issues for sustainability and sustainability targets		
Certified as an Outstanding Organization for Health and Productivity Management in 2022		Disclosure of information based on TCFD Framework
Co-Creation Support Program (COI-NEXT) co-creation category (full-scale) adopted by Japan Science and Technology Agency (allergen-reduced eggs)		Achieved zero vegetable waste at all seven plants (Nakagawara, Itami, and Tosu Salad Club, Inc. Plant, etc.)
ABC Cooking Studio × Kewpie (Salad and Egg Food and Health Kitchen) joint project		Amount of plastic used in containers of Verde Peanut Whipped Cream and Chocolate Whipped Cream reduced by approx. 9.3%
Kewpie Corporation received the Ministry of Agriculture, Forestry and Fisheries Award at the 6th Food Education Activity Awards, Educator and Business Category (company sector)		Year/month display for 3 products on Kewpie Three-Minute Cooking Yasai wo Tabeyou (Let's eat vegetables!) series
Opened Vegetable Friends' Farm in Fukaya Terrace Park as an integrated facility to experience the delights of vegetables		Lightened weight of Aohata Fully Fruit series bottles
Started SDGs classes online and as mobile presentations		Salad Club, Inc. reduced plastic usage by approx. 10% by reducing the weight of salad trays
Kewpie, Delia Foods, and Potato Delica receive Distinguished Industrial Achievement Award for Cold Pressed Fresh Manufacturing Method® at 72nd		Achieved the industry's longest shelf life Salad Club Cabbage for Frying: Cut vegetables for heating, using technology to preserve freshness longer

	Convention of Japan Association of Food Preservation Science	
	Technology Award for Cold Pressed Fresh Manufacturing Method® at 23rd Convention of the Japan Society for Food Engineering	Salad Club, Inc. reduced plastic usage by changing the salad film packaging standards (reduction of dimensions and thinning)
	Food Product Packaging Award in Packaging Category Award category (for Kewpie Cage-Free Mayonnaise) at 2022 Japan Packaging Contest	Switching to 100% renewable electricity at Shibuya Head Office and Sengawa Kewport
	Accessible Design Packaging Award in Packaging Technology Award category (for packaging for the series of Happy Recipe for Microwaves) at 2022 Japan Packaging Contest	Installation of on-site PPA model solar panels at Kewpie Kobe Plant
	Japan Packaging Technology Association Chairman's Award in Japan Star Award category (for Verde Peanut Whipped Cream, Chocolate Whipped Cream) at 2022 Japan Packaging Contest	Amount of plastic used in packaging for Soft Rice Crackers with Vegetables (Kewpie Baby Snacks series) reduced by approx. 35% by changing the packaging material
	FY2022 Good Design Award 2022 (HOBOTAMA series)	Received the Green Food System Promotion Award (for "Effective Use of Eggs" video) at Sustainer Award 2021
		Market launch of HOBOTAMA plant-based food
		Provided support to reduce waste (food loss) in Salad Club's Cut Lettuce growing region (campaign with increased package contents at no additional cost to consumers)
		Aeru Pasta Sauce series: Changed to year/month display; Reduced amount of plastics used in packaging by approx. 7% by slimming packaging material
		Best-before dates extended for 31 items in Kewpie Yasashii Kondate nursing care foods series
		Completed the switch of all packaging materials and inks for Salad Club Sozai Pouch (ingredients pouch) series to plant-derived biomass pouches and biomass inks
		Completed the switch to the RSPO book-and-claim method for palm oil and started the switch to the mass balance method.
2021	Revised our Material Issues for Sustainability and Sustainability Targets	
	Started online baby food classes at Kewpie Tosu Plant	Installed all-electric facilities at Kewpie Guangzhou Plant
	Kewpie and Tokyo Kasei University established the Egg Delicacy Research Institute as a joint research course	Reduced packaging plastic by around 25% for the Kewpie baby snack "Tamago Tappuri Boro" (Round Biscuits with Plenty of Egg)
	Released "Health Support Book"	Completion of zero-waste vegetable production at four plants (Salad Club Goka Plant etc.)
	Aohata Corporation recognized as a "company supporting child-rearing" for four consecutive terms	Adopted containers made partly from recycled plastic for all Kewpie Tasty Dressing products
	Started Kewpie dietary education activities "Mayonnaise Class" and "Food	Endorsed TCFD recommendations Joined TCFD consortium

	Lectures" in-person and online	
	Formulated the Kewpie Group Human Rights Policy	Salad Club, Inc. launched sustainability webpage
	Launched "Food & Life Academy," a website where the children who will shape our future can enjoy learning and experimenting to nurture their zest for life	
	Launched "Let's Enjoy Vegetables with Children," a website to encourage children to eat vegetables in a delicious and fun way	
	Launched "Food and Health Support for Everyone," a website that introduces key dietary points for each generation to be aware of and recommended recipes	
2020	A reorganization establishes the Sustainability Promotion Department (formerly CSR) inside the Management Promotion Division	
	Established a Sustainability Committee (formerly CSR Committee) chaired by the director in charge of sustainability	
	The CSR website changed its name to the Sustainability Website	
	FY2020 Health and Productivity Management Outstanding Organizations Recognition Program (White 500) Certified for the 3rd consecutive year	Solar power generation equipment installed at the Shunsai Deli Co. Ltd. Akishima site
	Kewpie Corporation received the Minister of Agriculture, Forestry, and Fisheries Award in the 2nd Japan Open Innovation Prize for use of AI in raw material inspection system	Eliminated vegetable waste at three factories(Salad Club Mihara Factory and Salad Club Maniwa Factory)
	Established Kewpie Research Division for Egg Innovation at the Tokyo University of Agriculture	Kewpie Corporation and Kewpie Egg Corporation receive the Ministry of Agriculture, Forestry and Fisheries' Food Industry Affairs Bureau's Top Award in the Seventh Food Industry Mottainai (Reducing Wastefulness) Awards (on the exploration in value of eggshells and eggshell membranes and contributions to food and health)
	Kewpie Corporation won the FY2020 "Intellectual Property Achievement Award" for the Award from the Commissioner of the Japan Patent Office as a company that has effectively taken advantage of the intellectual property rights system	Began to use recycled plastic for the outer packaging of the Kewpie stick-type dressings
	Launched joint research with Tokyo Kasei University to develop a microRNA measurement device with the goal of creating a cancer prevention service in the future	"Salad Club Ingredients Pouch" series Began to use plant-based plastic for 12 of the products Extended the shelf life of all products and switched to "month, year" expiration labels
	Selected to participate in the FY2020 Project for Establishing Infrastructures for Research and Development for Innovative Robots: R&D to Achieve Robot-Friendly Environments (working with a partner company to develop, at low cost, automation machines that can serve delicatessen foods into containers)	Joined the Plastics Smart Campaign organized by the Ministry of the Environment
	Presented the results of a joint study conducted with Matsumoto City and Matsumoto University Made recommendations for a healthy diet	Joined the Japan Clean Ocean Material Alliance (CLOMA)

	Began joint research with Shibuya-ku on the relationship between diet and health	
	Selected to participate in the "Technology Development Project on Next-Generation Artificial Intelligence Evolving Together With Humans" organized by the New Energy and Industrial Technology Development Organization (NEDO) in the "Development of Fundamental Technology of Explainable AI" (a part of Research and Development Item (i): Development of Fundamental Technology for an AI System That Evolves Together With Humans)	
	Kewpie Corporation was selected to participate in the FY2020 Research Program on Development of Innovative Technology (Research and development of an AI instrument that can inspect the exterior and interior of food ingredients quickly, at low cost and with high accuracy)	
	First online social studies tours were held at the Kewpie Koromo Plant and Kewpie Kobe Plant	
	Began online tours at Mayo-Terrace	
2019	Formulated the "Sustainability Targets"	
	FY2019 Health and Productivity Management Outstanding Organizations Recognition Program (White 500) Certified for the 2nd consecutive year	Eliminated vegetable waste (Salad Club Enshu Factory)
	Reached 100,000 total people attending Mayonnaise Classes (remote visits)	Recycled plastics used in outer packaging for Kewpie dressing stick-type
	"Kewpie Smile Concert," a centennial anniversary celebration, held at 10 day cares, kindergartens, and nursing facilities across Japan	Kewpie, Sunstar Inc., and Japan Pallet Rental Corporation launched a tri-company initiative to share truck and sea shipments (between Kansai and Kyushu)
	Comprehensive partnership agreement with Yamagata Prefecture (promoting the revitalization of the region and increasing residents' quality of life)	Kewpie Corporation and Green Message Co., Ltd. receive the Ministry of Agriculture, Forestry and Fisheries' Food Industry Affairs Bureau's Top Award in the Sixth Food Industry Mottainai (Reducing Wastefulness) Awards (promoting upcycling using unused parts of vegetables)
	Kewpie Corporation wins the grand prize in the Deep Learning Business Awards for the use of deep learning in AI raw material inspection systems (organized by Nikkei x TECH)	Kewpie Corporation and Kewpie Egg Corporation receive the Minister of Agriculture, Forestry and Fisheries Award for the FY2019 3Rs (Reduce, Reuse, and Recycle) Promotion Merit Awards. (campaign to increase added value of egg shells and contributions to society)
	Kewpie Corporation wins the grand prize in the Deep Learning Business Awards for the use of deep learning in AI raw material inspection systems (organized by Nikkei x TECH)	
2018	Formulated the "Basic Approach to CSR" and "CSR Material Issues"	
	Certified under the 2018 Health and Productivity Management Organization Recognition Program ("White 500" category for large organizations)	Formulated Kewpie Group Fundamental Policy for Sustainable Procurement
	Certified under the Platinum Kurumin program recognizing organizations that	Kewpie changed expiration labelling from year/month/day to year/month (on retort

	support child-raising	pouches for the Yasashii Kondate commercial nursing food series) for the first time
	Entered into comprehensive partnership agreement with the Hiroshima prefectural government (to engage in local production/local consumption initiatives, dietary education, health promotion, etc.)	Switched from glass containers to plastic bottles for Kewpie dressing (Reduced greenhouse gas emissions by around 20% in raw ingredient procurement, container production, and container transport)
	Established the "Aichi Minna no Salad" Executive Committee (supporting an increase in vegetable consumption for Aichi residents)	Installed solar power generation facilities at Kewpie (Thailand) Co., Ltd.
		Kewpie, Lion Corporation, and Japan Pallet Rental Corporation, three companies from different industries, launched a joint-route transportation scheme
		Kewpie Corporation and Green Message Co., Ltd. receive the Prime Minister's Prize for the FY2018 3Rs (Reduce, Reuse, and Recycle) Promotion Merit Awards. (promotion of upcycling of unused parts of vegetables)
		Received the FY2018 Excellent Green Logistics Partnership Award from the Ministry of Land, Infrastructure, Transport and Tourism
		Joined the RSPO* (*RSPO: Roundtable on Sustainable Palm Oil)
2017	Staged a CSR display at the General Meeting of Shareholders	
	Established CSR Committee and restructured Environment Committee to form an organization that promotes overall CSR activities including food education and social contribution	
	Started Open Kitchen factory tours at Kewpie Kobe factory	Expanded solar power generation facilities at Green Factory Center
	Established the Kewpie Mirai Tamago Foundation (*Since April 1, 2019, switched to a Public Interest Incorporated Foundation)	Fujiyoshida Kewpie won Facility Excellence Award in the FY2016 Kanto Region Electricity Usage Rationalization Committee Chairman's Awards Note: Share transfer in 2021.
	Kewpie Mirai Tamago Foundation convened 1st Summit on Creating Meaningful Spaces in which Children Can Relax and Gain a Stronger Sense of Belonging in Regions	Aprons dyed with vegetable residue from factory processes (food textiles) adopted for use in Mayonnaise Classes
		Green Message Co., Ltd. started making silage from vegetable residue
2016	Signed a Shibuya Social Action Partner agreement with the municipal government of Shibuya Ward	Extended expiry dates for some sizes of Kewpie Mayonnaise and Kewpie Half Salad Dressing (to reduce food waste)
		Started 3rd stage of Kewpie Forest activities
		Kewpie Kobe factory began operation based on the concept of halving energy use
		Installed solar power generation facilities at Enshu Delica Co., Ltd.* and the Goka Factory *now the Salad Club, Inc. Enshu Factory
2015	Social & Environmental Promotion Department reorganized to form the CSR Department	

		Started promoting modal shift for long-distance transport (500 km or more)
		Extended expiry dates for some packaged salad products
		Installed solar power generation facilities at Green Factory Center and Fujiyoshida Kewpie Co., Ltd. (Share transfer in 2021)
2014	Opened Mayoterrace visitor facility at Sengawa Kewport	Exhibited sample uses of eggshells in the Ministry of the Environment's "Fun to Share" booth at the EcoPro 2014 trade fair for eco-products
		Installed solar power generation facilities at K.R.S. Corporation's Tokorozawa distribution center and Kewpie Jyozo Co., Ltd.'s Shiga Factory
		Joined the "Container and Packaging Diet Declaration" initiative promoted by nine local governments. Showcased products with lightweight containers via a campaign run by 75 supermarkets in the Kanto region.
		Began production of livestock feed for pigs from potato peel (chiefly potato skin and sprouts)
2013	Established the "Food for Health" endowed research department at Ochanomizu University	Joint initiative by Kato Sangyo Co., Ltd., K.R.S. Corporation, and Kewpie to promote and expand green distribution won a Green Partnership Council special award
	Started cosponsorship of All-Japan Elementary School Dance Competition	Installed solar power generation facilities at K.R.S. Corporation's Matsudo Sales Office and Itami No. 3 Sales Office, and Kpack Co., Ltd.
	Aohata Corporation entered into comprehensive partnership agreement with the Hiroshima prefectural government	Started 2nd stage of Kewpie Forest activities
2012	Restructured Social & Environmental Promotion Department and Public Relations Office to form the Public Relations and CSR Division	
	Began production and publication of picture books for children (one volume per year published until 2016)	
	Opened the Aohata Jamdeck visitor facility at the Aohata Jam Factory	
2011	Won Minister of Agriculture, Forestry and Fisheries Prize in the CSR category of the 32nd Food Industry Excellent Company Award	
	Began five-year program of donations to educational support activities in areas affected by the Great East Japan Earthquake conducted by the Bellmark educational aid foundation	
2010	Launched "Kazoku de Wakuwaku Cooking" (exciting family cooking) classes with guest chef Kiyomi Mikuni	
2009	Restructured Social & Environmental Promotion Office and Legal and Intellectual Property Office to form CSR Promotion Division and reorganized Social & Environmental Promotion Office as Social & Environmental Promotion Department	
	Established "Mayonnaise Factory" activity	Introduced Toyota Prius hybrid cars into

	at the KidZania Koshien activity park	sales fleet
2008	Launched QPeace donation-matching scheme	Reduced inks used for printing on cardboard boxes from 39 colors to 18 standard colors
	Social and environmental blog won Goo Environmental Award (blog category)	
2007	Began supporting food bank activities	Fujiyoshida Factory obtained ISO14001 certification Note:Share transfer in 2021.
	Launched social and environmental blog	Started Kewpie Forest conservation activities in Fujiyoshida, Yamanashi Prefecture, in the aim of fostering water sources
2006	Began cosponsorship of the Shibuya Music Scramble festival	Joined the Japanese Government's "Team Minus 6%" global warming prevention initiative
		Joined the "Container and Packaging Diet Declaration" initiative promoted by eight local governments
	Began publishing the Social and Environmental Report (increased content relating to social contribution initiatives and published print and online versions)	
2005	Appointed officer in charge of CSR, reorganized Environmental Measures Office into Social & Environmental Promotion Office	
	Started publishing Environmental and Social Report (added information on social activities to Environmental Report)	
		Nakagawara Factory obtained ISO14001 certification
2004	Kewpie News awarded top prize in the 4th "Excellent Material Awards concerning Consumer Education for Companies and Organizations" (organized by the National Institute on Consumer Education)	Tosu Factory obtained ISO14001 certification
2003		Achieved 100% recycling rate for waste at all Kewpie factories
2002	Started Mayonnaise Classes	Abolished waste incinerators at all Kewpie factories
	Established the Toichiro Nakashima Memorial endowed health food science course at graduate school of the Tokyo University of Fisheries (now Tokyo University of Marine Science and Technology)	Achieved 100% recycling rate for waste at Goka Factory
2001		Started publishing Environmental Report
		Goka Factory obtained ISO14001 certification
		Developed Group Environmental Management Manual
2000		Reduced bulk of mayonnaise containers and cardboard boxes, eliminated use of packaging partitions, etc.
		Itami Factory obtained ISO14001 certification
		Began cosponsoring and donating to the Kiritappu Wetland National Trust, an NPO
1998		Set standards for assessing environmental impact of containers and

		packaging
		Set basic principles for green purchasing, and developed and began operating guidelines for use of printer paper, etc.
		Formulated basic policy for environmental conservation (set goals for each division and embarked on activities)
1997		Appointed an officer in charge of environmental management and established Environmental Measures Office
		Reorganized environmental organizations and established Environmental Committee to include all group companies (Chair: officer in charge of environmental management)
		Launched umami condiment using eggshell membrane as an ingredient (Product name: Ransho). Note: This product has been discontinued.
1993		Established system for group companies to conduct mutual safety and environmental checks
1992		Reduced container bulk (introduced lightweight round bottle for dressings, etc.)
1991		Established Environmental Issue Investigation Committee (Chair: General Manager of Production Division)
		Processed eggshell membrane and began selling it as a raw ingredient for cosmetics
